Uniform Residential Appraisal Report

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

Summary of Sales Comparison Approach

Uniform Appraisal Dataset Definitions

Condition Ratings and Definitions

C1 The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.*

*Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2 The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

*Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3 The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

*Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4 The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

*Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5 The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

*Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6 The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

*Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1 Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2 Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3 Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4 Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5 Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6 Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.
Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.
An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/ or expansion.
A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

The number of full and half baths is reported by separating the two values by a period. The full bath is represented to the left of the period. The half bath count is represented to the right of the period. Three-quarter baths are to be counted as a full bath in all cases. Quarter baths (baths that feature only toilet) are not to be included in the bathroom count.

There are security bars on the 1st floor windows some of which have release latches and is up to a local code.

The subject property is located in Brooklyn county however in Gowanus city.

External obsolescence noted for subject property which has an effect on the marketability and has been reflected on the grid and appropriate adjustments have been made to comps and listings.

The quality of construction adjustments for comps were based on the fact that the market finds brick/stucco properties more superior than frame.

The design(style) adjustments for comps were based on the fact that the market finds detached properties more superior than semi-attached and semi-attached properties more superior than attached.

The GLA was derived by phisical measurements which came out to 2024 sq.ft. according to ANSI standards ANSI Z765-2021.

The age adjustements were not necessary for the comps because they are reflected under condition adjustments.

The appraised value is lower than of the predominant value is due to subject's features and GLA size are not common which is below average and hence the value adjusts below predominant.

The bathroom, balcony, deck and parking adjustments for comps were based on the information found in public records and the pictures available online.

NO DRILLING OBSERVED ON SITE OR WITHIN 200 FEET OF THE SUBJECT PROPERTY.
No Oil, Gas and/or Mineral leases or mining is noted proximate to the subject

The basement sizes are not provided anywhere in public records nor mls listings other than that it is either finished or not finished, hence it has been estimated based on the visual inspection of the subjec't basement area and the dimensions of the first floor and the same estimate was applied to the comps however the presence of the bathroom in the basement is provided in public records or mls listing.

EXPOSURE TIME: THE OPINION OF REASONABLE EXPOSURE TIME FOR THE SUBJECT PROPERTY, AS REQUIRED BY USPAP RULE 1-2c FOR THIS REPORT, IS BASED ON THE DATA COLLECTED USING THE CMLS DATABASE, AND IS EXPECTED TO BE BETWEEN 90-180 DAYS. THIS EXPOSURE TIME IS REFLECTIVE OF THE SUBJECT'S COMPETING MARKET AS INDICATED BY THE ACTIONS OF TYPICAL BUYERS AND SELLERS

I have performed no services, as an appraiser, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance.

Due to a lack of more recent, nearby, similar sales the following client guidelines had to be exceeded:
Sales/listings that exceed the three month time frame.
Sales/listings that exceed 10 % net adjustments
Sales/listings that exceed 10 % gross adjustments
Sales/listings with GLA totals with a more than 15% variance as compared to the subject's
Sales/listings with sale prices variances of more than 15%

The comp from the crossing main roads or highways are in a similar market and accuratley reflect the market value for subject property.

THESE ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:
- THE COLLECTION OF DATA REGARDING THE PHYSICAL PROPERTY, ITS GENERAL LOCATION, NEIGHBORHOOD TRENDS AND INFLUENCES, THE OBSERVED RELATIVE CONDITION AND EFFECTIVE AGE OF IMPROVEMENTS, THE SUBJECT'S AMENITIES AND SPECIAL FEATURES, AVAILABLE UTILITIES, ZONING AND RELATED CONTROLS, AND THE PROPERTY'S ASSESSMENT AND ANNUAL REAL ESTATE TAXES.

THE APPRAISER IS NOT AN EXPERT IN THE IDENTIFICATION OF HAZARDOUS SUBSTANCES OR DETRIMENTAL ENVIRONMENTAL CONDITIONS. THE APPRAISER'S ROUTINE INSPECTION OF AND INQUIRIES ABOUT THE SUBJECT DID NOT DEVELOP ANY INFORMATION THAT INDICATED ANY APPARENT SIGNIFICANT HAZARDOUS SUBSTANCES OR DETRIMENTAL ENVIRONMENTAL CONDITIONS WHICH WOULD AFFECT THE PROPERTY NEGATIVELY. IT IS POSSIBLE THAT TESTS AND INSPECTIONS MADE BY A QUALIFIED HAZARDOUS SUBSTANCES AND ENVIRONMENTAL EXPERT WOULD REVEAL THE EXISTANCE OF HAZARDOUS MATERIAL AND ENVIRONMENTAL CONDITION ON OR AROUND THE PROPERTY THAT WOULD NEGATIVELY AFFECT ITS VALUE. THE APPRAISER ASSUMES NO RESPONSIBILITY FOR THE PRESENCE OF RADON GAS, AS THE APPRAISER

Borrower: Tatiana Rodriguez		File No.: 10061850_1

HAS NO EXPERTISE IN THIS AREA.

THIS REPORT PRESUMES THAT RADON IS NOT PRESENT IN THE SUBJECT PROPERTY ABOVE 0.02 WORKING LEVELS (4 PICOCURIES/LITER), AND THEREFORE, NO CONSIDERATION HAS BEEN GIVEN TO THE POTENTIAL ADVERSE AFFECT ON THE VALUE OF THE PROPERTY, IF ANY, THAT RADON MIGHT CAUSE.

THE PRESENCE OF FORMALDEHYDE FOAM INSULATION COULD NOT BE DETERMINED. IF UFFI IS PRESENT, THE APPRAISED MARKET VALUE MAY BE ADVERSELY AFFECTED OR VOIDED. ANY INFORMATION STATED ON THE APPRAISAL WAS PROVIDED BY INSPECTION, OWNER OR AGENT, AND IS ASSUMED TO BE ACCURATE.

WE ARE UNABLE TO VERIFY THE INSULATION " R " FACTOR. HOWEVER, UPON VISUAL INSPECTION, IT IS BELIEVED TO BE ADEQUATE AND AVERAGE FOR DWELLINGS IN THIS AREA. THIS HAS NO AFFECT ON THE VALUE OR FUTURE MARKETABILITY OF THE SUBJECT PROPERTY.

ALL MECHANICAL SYSTEMS INCLUDING THE HEATING, ELECTRICAL, AND PLUMBING SYSTEMS APPEAR UPON A VISUAL INSPECTION TO BE IN WORKING ORDER. NO WARRANTIES ARE IMPLIED IN THIS STATEMENT.

THERE ARE NO SPECIAL CONDITIONS OR OTHER REQUIREMENTS OTHER THAN THOSE MENTIONED IN THIS APPRAISAL THAT WOULD AFFECT MARKET VALUE OR FUTURE MARKETABILITY IN THIS APPRAISAL REPORT.

PERSONAL PROPERTY, IE: FURNITURE, WINDOW TREATMENTS, BUILT-INS, ETC., HAS BEEN GIVEN NO VALUE IN THIS REPORT BECAUSE IT IS A NON-REALTY ITEM.

THE INCOME APPROACH WAS CONSIDERED AND FOUND INAPPLICABLE BECAUSE, IN THIS MARKET, FEW SINGLE FAMILY HOMES ARE RENTED AND THERE IS SUFFICIENT DATA AVAILABLE TO DEVELOP EITHER A FAIR MARKET RENT OR A GROSS RENT MULTIPLIER. THEREFORE, I HAVE RELIED ON THE MARKET DATA APPROACH IN MY ESTIMATE OF VALUE AND USED THE COST APPROACH AS A SUPPORTIVE METHOD.

THE SUBJECT PROPERTY HAS NOT SOLD IN THE PAST YEAR.

THE LAND TO VALUE RATIO IS COMMON FOR THIS MARKET AREA.

THIS APPRAISAL HAS BEEN MADE IN ACCORDANCE WITH TITLE XI OF THE FEDERAL FINANCIAL INSTITUTIONS REFORM RECOVERY AND ENFORCEMENT ACT OF 1989 ("FIRREA"), EFFECTIVE AUGUST 9, 1990, AS WELL AS THE UNIFORM STANDARDS OF PROFESSIONAL PRACTICE ("USPAP") PROMULGATED BY THE APPRAISAL STANDARDS BOARD OF THE APPRAISAL FOUNDATION.

MARKET TREND/MARKETING TIME

THE REASONABLE MARKETING TIME FOR THE SUBJECT PROPERTY IS DERIVED BY EXTRACTION FROM THE COMPARABLES AND INFLUENCED BY THE ECONOMIC CONDITIONS PREVAILING AT THE TIME OF THE APPRAISAL. A REVIEW OF SETTLED SALES OVER THE PAST 3-6 MONTHS INDICATES WHAT APPEARS TO BE A STABLE MARKET WITH AN AVERAGE MARKETING TIME OF 3-6 MONTHS.

THE DIGITAL PHTOGRAPHS IN THIS REPORT ARE ORIGINAL PHOTOGRAPHS AND HAVE NOT BEEN ENHANCED OR ALTERED.

THIS APPRAISAL REPORT WAS PREPARED FOR THE CLIENT AND/OR ITS ASSIGNS, FOR MORTGAGE FINANCING PURPOSES ONLY. USE OF THIS REPORT FOR ANY OTHER PURPOSE IS NOT ALLOWED WITHOUT THE WRITTEN CONSENT OF THE APPRAISER.
