Summary of Sales Comparison Approach: Comparable properties in this report are located in the same community or similar communities as the subject and have access to the similar amenities, such as utility services and conveniences. The comparables selected are considered the best available and are accurate indicators of market value. The appraiser's opinion of value is based primarily on the sales comparison approach. It most accurately reflects the actions of buyers and sellers in the market.

Indicated Value by Sales Comparison Approach $ 395,000

INCOME

INCOME APPROACH TO VALUE (not required by Fannie Mae)

Estimated Monthly Market Rent $ X Gross Rent Multiplier = $ Indicated Value by Income Approach

Summary of Income Approach (including support for market rent and GRM): Homes in this price range and neighborhood are typically purchased for use and not income. Thus, the income approach lacks rationale and was not developed.

RECONCILIATION

Indicated Value by: Sales Comparison Approach $ 395,000 Income Approach (if developed) $

The Cost Approach was not developed. It is the opinion of the appraiser that the Sale Comparison Approach data in this form is sufficient for the lender to make a loan decision. The Income Approach is not applicable due to the lack of economic data, as single family dwellings are not typically purchased for income production purposes in this market. Appraiser fee $425.00 AMC000120

This appraisal is made [ ] "as is," [X] subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, [ ] subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or [ ] subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: Subject to completion per plans and specs.

Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is $ 395,000 as of 01/04/2022, which is the date of inspection and the effective date of this appraisal.

This report form is designed to report an appraisal of a unit in a condominium project or a condominium unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject unit, (2) inspect and analyze the condominium project, (3) inspect the neighborhood, (4) inspect each of the comparable sales from at least the street, (5) research, verify, and analyze data from reliable public and/or private sources, and (6) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Summary of Sales Comparison Approach: The builder provided 2 listings. Listings have same base price. The difference in sale price is the amount of options

1121 Carriage Options $31329 Base $329900
1123 Carriage Options $24721 Base $329900 Lot premium $5000
These sales are located in the same building as the subject. There are 4 attached units.

Subject $329900 Options $59398 Lot premium $5000

The builder stated that the subject is the highest price unit they have built in this development due to options. The listing vary by more than 3%. This is due to upgrades.

Uniform Appraisal Dataset Definitions

Condition Ratings and Definitions

C1 The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.*

*Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2 The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

*Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3 The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

*Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4 The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

*Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5 The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

*Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6 The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

*Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1 Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2 Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3 Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4 Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5 Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6 Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.
Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.
An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/ or expansion.
A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

The number of full and half baths is reported by separating the two values by a period. The full bath is represented to the left of the period. The half bath count is represented to the right of the period. Three-quarter baths are to be counted as a full bath in all cases. Quarter baths (baths that feature only toilet) are not to be included in the bathroom count.

ADDENDUM

Borrower: Marcie Heyl		File No.: 1124carr/1171139
Property Address: 1124 Carriage Ln		Case No.: 0040655649
City: Saxonburg	State: PA	Zip: 16056
Lender: Citizens Bank, N.A.		

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

I have knowledge and experience in appraising this type of property in this market area and I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

The borrower owns a portion of the land. This is why the appraiser deems the cost approach not applicable.

Highest and best use:
1) Be legally permissible The zoning is legal
2) Be physically possible There is a house built on the land
3) Be financially feasible The subject conforms to the neighborhood.
4) Be maximally productive A single family home is the most productive use in this neighborhood and conforms with current zoning.

There were no signs of oil/gas drilling within 200 ft of the subject.

The appraiser is not aware of any oil/gas and/or mineral leases.

It has not been proven if oil/gas and/or mineral leases affect the marketability.

All adjustments are market based. Based on the appraiser's opinion of what a typical buyer would pay on the open market for the difference in amenities.

It is a common practice for the seller to pay some of the buyer's closing costs. Many of the seller contributions are for FHA financing which allows 6% seller assists. Therefore, concession adjustments were not made.

There is no active drilling on the property, any active pumping site is not within 300 feet of the property & it's common for the area.

There has been a FEMA Disaster declared in the subjects County within the prior 90 days. It has not been determined if the subject and/or surrounding areas have been adversely affected by the disaster. COVID-19 Pandemic (DR-4506)

The appraiser has not identified any purchaser, borrower or seller as an intended user of this appraisal, and no such party should use or rely on this appraisal for any purpose. Such parties are advised to obtain an appraisal from an appraiser of their own choosing if they require an appraisal for their own use. Any reference to or use of this appraisal report by a purchaser, borrower or seller for their own purposes, including without limitation for the purposes of a property purchase decision or an appraisal contingency in a purchase agreement, is at such partys
own risk and is not intended or authorized by the appraiser

Taxes are estimated based on completion per plans and specs.

Estimated remaining economic life 70 years

The appraiser is not aware of any pending lawsuits or special assessments.

Borrower on the order Marcie Heyl. Buyer on the contract Marcie L Heyl & Kevin R Heyl.

The HOA stated there are 56 planned units. 44 are sold and closed. 12 units are remaining. 9 of the 12 units are under contract.

The subject was framed at time of inspection. The exterior was measured with a tape measure and the interior of the 2nd floor. I also reviewed the renderings. The builder has a gla of 1999 sf. The measured gla is 1996 sf. Deemed reliable but not guaranteed.

There are no utilities on at time of inspection.

The purchase contract with options is $394297. The total when I add is $394298.

Sale 1 and listings 4 and 5 are located in the same development. Sales 2 and 3 are in competing developments and built by a different builder.

New construction sales are often not listed in MLS. I did a search of the subject development on the county website. The majority of sales were from 2016. I also asked the builder for recent similar sales. There were none provided. Sale 1 is a resale in the development. I searched the school district for the past 24 months for similar condo style dwellings. I was unable to find any. Therefore, I expanded the search for sales.

Sales 2 and 3 were given the most weight because they are new construction sales that are recent. These sales are also most similar in gla. The subject sold within the range of values of the sales. Therefore, it appraised at sale price rounded.

No adjustment was made for C1 vs C2 as effective age is similar.

Due to limited sales activity and custom nature of the subject, it was necessary to use dissimilar properties and adjust for differences. This resulted in net adjustments for comparable # 1 to be in excess of 15%. These adjustments are outside of the recommended guidelines, however, are warranted in this report. The comparables are considered the best available, they are reflective of market actions for the subject property and, after adjustments, are indicative of market value for the subject property.

GLA for sale 1 is less than 20% of the subject gla. This was included due to a lack of similar sales in the development that can be verified.
Twelve Month Listing History of Subject Property
Continued from Twelve Month Listing History of Subject Property: been listed for sale in West Penn MLS in the past 12 months.

Extra Comments
Comments on Market Data:

Due to a lack of recent sales data on homes with similar market appeal in the subjects immediate area, it was necessary to expand the search for comparables outside a one mile radius from the subject property. Therefore comparables #2 and 3 are in excess of 1 mile from the subject. However, they do appeal to the same socio-economic market. This lack of sales data is attributable to lack of offerings and not indicated of an insufficient demand.

Comparables # 1,2,3 are more than 6 months old, due to the relative infrequency of recent sales which are comparable to the subject, it was necessary to broaden the time period. The sales are limited due to the fact that there are few offerings and not because of an imbalance of supply and demand. No time adjustment was warranted due to the stable nature of this market.

There is no dollar dissimilarity that was able to be abstracted from the market for the variation in predominantly brick construction versus predominantly frame construction in this price range and market area.

ADDENDUM

Borrower: Marcie Heyl		File No.: 1124carr/1171139
Property Address: 1124 Carriage Ln		Case No.: 0040655649
City: Saxonburg	State: PA	Zip: 16056
Lender: Citizens Bank, N.A.		

An age adjustment was calculated at 5% for sale 1. This accounts for any wear and tear.

No adjustment was made for C1 vs C2 as effective age is similar.

The location of the bathrooms in the comparables were unknown to the appraiser. Therefore, it was assumed by the appraiser that the bathrooms noted in the West Penn Multi-List or county records property descriptions were above grade. If bath location is determined to be different than noted in this appraisal there would be no effect on the estimated value.

Square foot adjustments are based on $?/sf of living space. All sales are closed and data is believed to be reliable. Indicated square foot area of comparable homes is approximate. The most recent, closely located sales were considered and their degree of comparability to the subject evaluated.

The subject property has a value which is lower than the predominate value for the neighborhood, creating an active market of people who desire to live there, but cannot afford the typical dwellings and does not represent an under-improvement for this area.

No adjustment was made between a porch, patio or deck as the utility usage is the same in this climate and geographic region and do not add or subtract from the marketability of properties.
Personal property was given no value in this report.

The appraiser may or may not have personally inspected each comparable. A visual exterior inspection was made on each comparable. Estimates and adjustments were compiled, analyzed and derived from published data sources.

Closing costs were estimated based upon WPMLS and agent information. If the appraiser is unable to determine actual closing costs zero was recorded on the form. All information is deemed reliable but not guaranteed.

Summary:

APPRAISER DID NOT DETERMINE IF SUBJECT PROPERTY MEETS STATE OR LOCAL BUILDING OR FIRE AND PANIC CODE REQUIREMENTS. APPRAISER HAS DETERMINED THAT THE SUBJECT MEETS MINIMUM PROPERTY STANDARDS, UNLESS NOTED OTHERWISE, TO ASSURE SAFE SANITARY HOUSING AS PER H.U.D. MINIMUM PROPERTY STANDARDS. IN THE EVENT THERE IS A CONCERN REGARDING STATE OR LOCAL BUILDING CODE COMPLIANCE, TOXIC OR HAZARDOUS CONDITIONS, STRUCTURAL INTEGRITY OR EQUIPMENT ADEQUACY, AN APPROPRIATE INSPECTOR SHOULD BE CONTACTED.

UPON REQUEST AND IN ACCORDANCE WITH USPAP STANDARD RULE 2-2A STATEMENT ON APPRAISAL STATEMENT NO.7 (SMT-7), THE APPRAISER SUBMITS THIS APPRAISAL REPORT WHICH IS PREPARED FOR MORTGAGE PURPOSES COMPLIANCE WITH USPAP REGULATIONS (STATEMENT NO. 7). THE INTENDED USERS OF THIS REPORT BEING THE MORTGAGE ORIGINATOR, PROCESSOR, UNDERWRITER, ATTORNEY, AND LOAN OFFICER. THE BORROWER IS NOT AN INTENDED USER.

Please note that electronic signatures have been used in this report. USPAP and the Appraisal Standards Board state that electronically affixing a signature to a report carries the same level of authenticity and responsibility as an ink signature on a paper copy report ("the term written records includes information stored on electronic, magnetic or other media.") All electronic signatures in this report have a security feature maintained by individual exception of the appraiser.

The appraiser certifies and agrees that this appraisal was prepared in accordance with the requirements of Title XI or the Financial Institutions, Reform, Recovery, and Enforcement Act (FIRREA) or 1989, as amended (12 USC 3331 et seq) and applicable implementing regulations in effect the the time the appraiser signs the appraisal certification.

No employee, director, officer or agent of the lender, or any other third party acting as a joint venture partner, independent contractor, appraisal management company, or partner in behalf of the lender has influenced or attempted to influence the development, reporting, result or review of this assignment through coercion extortion, collusion, compensation, instruction, inducement, intimidation, bribery or in any other manner. I have not been contacted by anyone other than the intended user (lender/client as identified on the first page of the report),
borrower or designated contact to make an appointment to enter the property. I agree to immediately report any unauthorized contacts either personally by phone or electronically to vendor management.
