Explanation of Estimated or Other responses above: There's a lack of inventory available on comps built between the years 1850-1950. Due to lack of inventory, the comps are outside of the recommended 3 mile radius and 10% GLA variance. The MLS had no data for below grade sq footage for any of the comps.

Estimates of Price

Discuss how you arrived at these prices: I arrived at $225,000 based upon the most weighted comp: Sold Comp #1, which sold within the last 8 months, and shares similarities with the Subject such as GLA , Age and Lot Size. Without knowing the condition of the Subject's interior, I did not price at top of market. This is a complex BPO to price without seeing the interior. Most comps in DE, built 100+ years ago have been completely renovated (can't use as a comp), OR they're in need of a complete overhaul and cash only sales. In addition, there's no available comps within the Subject's immediate neighborhood. The closest comps are 12-20 miles from the Subject.

ADDENDUM

Borrower: HANCOCK LLC		File No.: 31056718_1609164
Property Address: 407-40 N BRD ST		Case No.:
City: MIDDLETOWN	State: DE	Zip: 19709
Lender: Fay Servicing, LLC		

Explanation of Estimated or Other Sources

I was advised to complete the report based upon 407 & 409 as 1 building. The information recorded on 409 N Broad St is for the entire building: 407 and 409 are not separate structures. It appears that at 1 time, the building was 2 separate units. However, after researching the county's parcel site, the tax ID number is now for 409 N Broad St only, which is occupied. I've included the county sketch, as reference.

This is a very complex BPO due to the fact that the Subject is atypical in style, GLA, and age. There are very few comps available that met all criteria such as Style - (duplex that is now a single family home), age variance - (Subject was built in 1900), GLA, and room count. The Subject was once a duplex, but is now one structure with 12 total rooms and 6 bedrooms. Due to lack of inventory, the comps are outside of the recommended 10% GLA variance. In addition, in order to find comps built within a 50 year age variance, between 1850 -1950, I had to search the entire state of DE. I typically never go outside of a 3 mile radius, but there's simply no inventory. In order to find homes over 100 years old, I had to pull comps from a neighboring town named Smyrna, DE. All sold comps are outside of the recommended 6 months sale date. I also took into consideration the condition of the Subject's exterior, needing siding replacement, chimney and soffit repair. I chose the 3 best available based upon age and GLA. It was complex finding comps within the entire state of DE, to begin with. Therefore, I could not find properties with the same deferred maintenance.

Explanation on photos: Rain vs Sunny - I inspected the property twice, due to a rain storm the initial day. I went back to get better photos.

Comparative Sales Explanation of Estimated or Other Responses

Please see attached pdf. The Subject was once a Twin/Semi Detached style property. I was advised to complete the report based upon 407 & 409 as 1 building. The information recorded on 409 N Broad St is for the entire building: 407 and 409 are not separate structures. Due to lack of inventory, the comps are not within the Subject's immediate neighborhood and suggested 3 mile radius. Please see attached pdfs from MLS & New Castle County Parcel Search. The county tax records data: 2264 sq ft, whereas the MLS differs with 2275 sq ft.
