Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered “new” if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner’s site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:
3.2 indicates three full baths and two half baths.

Uniform Residential Appraisal Report

240268
File # 240268

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

In the process of preparing a standard appraisal report, the appraiser searches for comparable sales that are located as close to the subject as possible. When the home is located in a subdivision, the appraiser first explores within the subject subdivision or immediate area for properties for recent sales data. When the number of homes within the subdivision are sufficient finding comparables within that subdivision or area is achievable.

There are times, however, that the size of the subdivision, or lack of sales within, forces the appraiser to look to competing areas in competing subdivisions for comparable sales data.

This addendum will serve in part to certify that all comparable sales herein utilized are in areas or subdivisons of this market place that would compete with the subject in the eyes of a prospective purchaser. That is to say that a purchaser would have searched these competing market areas and give them equal consideration at the time they were inspecting the subject property.

Some of the special features found in this market area frequently prevent the selection of comparable sales within the preferred one mile area. The following information presents further explanation to the reader so that he or she might have a better understanding of the real estate market that exists in this particular market that is the subject of this report.

Over the years, development has centered in the city area, and as lots were sold in various areas, the city and county patterns moved in various directions. The river bottom and upper flats are surrounded, in many cases, by the growth that has occured in many encompassing directions and subdivisions that are identical, in many respects, between two to even fifty miles apart in actual distance.

Our market shows that a typical buyer, coming into this area, looks toward a number of different areas for the purchase of their new home. These areas compete within each other for the new buyer. Although there may be a significant distance in terms of distance (miles), there appears to be little, if any difference, in terms of buyer interest.

Therefore, due to the limited number of home sales in some areas, it becomes necessary at times, to find recent sales of homes that can be utilized in the appraisal process. We then utilize outer areas and find sales that we feel are of high quality and are important in the true indication of the value of our local market. When true comparable sales that meet other normal limits and requirements can be verified, we feel under no compulsion to exclude these sales simply because they are over five miles from our subject.

THE OTHER IN LAND USE IS VACANT LAND.

TYPICAL EXPOSURE TIME IS 90 TO 120 DAYS.

UNLESS OTHERWISE INDICATED, I HAVE PERFORMED NO SERVICES AS AN APPRAISER OR IN ANY OTHER CAPACITY, REGARDING THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT WITHIN THE THREE YEAR PERIOD IMMEDIATELY PRECEEDING ACCEPTANCE OF THIS ASSIGNMENT.

THE APPRAISER COMPARABLE SEARCH FOR SALES BEGAN WITHIN 1 MILE OF OUR SUBJECT AND THEN EXPANDED TO FURTHER YET COMPETING AREAS. THE APPRAISER SEARCHED FOR SALES WITHIN THE PREVIOUS 3 MONTHS AND THEN EXPANDED TO SALES WITHIN 1 YEAR. THIS MARKET HAS REMAINED STABLE AND NO ADJUSTMENTS WERE DEEMED NECESSARY.

AGE ADJUSTMENTS ARE BASED ON EFFECTIVE AGE AND LAND ADJUSTMENTS TAKEN INTO CONSIDERATION TOPOGRAPHY AND UTILITY.

?The subject is a legally permissible use based on its current zoning. Also, the lot size, shape and land-to-building ratio allow the present structure and indicate a good utilization of the improvements. Based on current market conditions, the existing structure as a single family residence is its financially feasible and maximally productive use. The highest and best use, as if vacant, would be to construct a single family residence.

THE SUBJECT MAY BE REBUILT SHOULD IT BE DESTROYED.

ALL UTILITIES WERE ON AT THE TIME OF THE INSPECTION,

Subject measurements were made in compliance with the ANSI standard of measurement and GLA is reported accordingly. Due to external impediments such as gutters, conduits, meters, housings, pipes, wires, radon mitigation systems, fenestration, landscaping, extreme land grades, ice etc. [Certified Appraisals] makes no guarantee that measurements are 100% accurate. Although comparable property GLA from public records is adjusted when discrepancies are clearly evident, [Certified Appraisals] cannot attest to the measurement standards used in public records, nor to the accuracy of comparable measurements, nor to the accuracy of measurement reporting in public records. [Certified Appraisals] further makes no guarantee that GLA adjustments made based on subject measurements will be appropriate in relation to comparable property GLA, if [Certified Appraisals] has not also measured the comparable property to which the subject is being compared.

Purpose

THE PURPOSE OF THIS APPRAISAL REPORT TO ESTIMATE THE MOST PROBABLE PRICE WHICH THIS PROPERTY WILL BRINC UNDER DEFINED CONDITIONS. THIS REPORT IS INTENDED FOR USE IN THE COLLATERAL LOAN PROCESS BY THE ABOVE MENTIONED PARTY. THEY ARE THE ONLY INTENDED USER OF THIS REPORT.

Scope of Work

THE APPRAISER HAS COMPLETED A PHYSICAL INSPECTION OF THE SUBJECT PROPERTY.THE COUNTY COURTHOUSE HAS BEEN VISITED,AND A PLAT MAP, TAXATION, AND ASSESSMENT INFORMATION WAS OBTAINED. WHILE ON SITE, THE APPRAISER MADE A SKETCH OF THE INTERIOR ROOMS, MEASURED THE EXTERIOR OF THE HOME AND GARAGE, AND TOOK REPRSENTATIVE PHOTOGRAPHS. THE APPRAISER INSPECTED THE HOME ON BOTH THE INTERIOR AND EXTERIOR. IF AN OWNER WAS PRESENT THEY HAVE PROVIDED THE APPRAISER WITH SOME INFORMATION PROVIDED IN THIS REPORT. THE APPRAISER THEN REVIEWED COMPARABLE SALES OBTAINED FROM A LOCAL MLS SERVICE. THE COUNTY COURTHOUSE, APPRAISER FILES AND THEN WROTE THE REPORT MADE THE ADJUSTMENTS INDICATED AND ASSEMBLED THE REPORT.

Intended Use / Intended User

Intended Use: THE OPINIONS AND CONCLUSIONS CONTAINED IN THIS REPORT WERE DEVELOPED WITH CONSIDERATION FOR THE CLIENT'S NEEDS AND THE ASSIGNMENT'S REQUIREMENTS

Intended User(s): SEE ADDENDUM BELOW.

History of Property

Current listing information: THE SUBJECT IS LISTED IN THE PARKERSBURG MLS AN DIS UNDER CONTRACT

Prior sale: THE SUBJECT HAS NOT TRANSFERED WITHIN THE PREVIOUS 36 MONTHS.

Exposure Time / Marketing Time

90 TO 120 DAYS IS THE TYPICAL MARKETING TIME PER THE LOCAL MLS. THIS MAY INCREASE DUE TO MARKET SLOWDOWN IN THIS MARKET OCCURING DURING WINTER MONTHS.

Personal (non-realty) Transfers

SOME NON-BUILT-IN APPLIANCES AND SOME WINDOW TREATMENTS MIGHT TYPICALLY BE INCLUDED, IF THE SUBJECT TRANSACTION IS A SALE. HOWEVER, THE OVERALL TYPICAL CONSUMER INFLUENCE OF THESE ITEMS IS USUALLY MINIMAL AND THE CONTRIBUTION OF THESE ITEMS OF PERSONAL PROPERTY ARE USUALLY NOT MEASURABLE TO THE APPRAISER IN THE ANALYSIS, THEREFORE NO ADDITIONAL VALUE IS NOTED.

Additional Comments

THE INCOME APPROACH AND COST APPROACH WERE CONSIDERED BUT NOT FULLY DEVELOPED DUE TO LACK OF SIGNIFICANT RENTAL SALES DATA. THE COST APPROACH WAS NOT FULLY DEVELOPED DUE TO DIFFICULTY IN DETERMINING DEPRECIATION AND QUALITY CURRENT MATERIAL PRICING. THE APPRAISER HAS FOUND NO VISIBLE OR READILY DETECTABLE EVIDENCE THAT WOULD LEAD THE APPRAISER TO A LOGICAL CONCLUSION THAT ANY ADVERSE ENVIRONMENTAL CONDITIONS ARE PRESENT OR LIKELY TO BE PRESENT ON THE SUBJECT SITE. HOWEVER THE CLIENT MAY DESIRE TO HAVE PROFESSIONAL INSPECTIONS AS A MATTER OF PRUDENT PRE PURCHASE INVESTIGATION. WE HAVE FOUND NO EVIDENCE OF ANY SERVICE STATION WITHIN 500 FEET OFTHIS UNIT, THERE ALSO WAS NO EVIDENCE OF NO DUMP SITE FOUND ON THE SUBJECT LOT. HOWEVER BOTH ASSUMPTIONS WERE MADE UPON WHAT LIMITED VISUAL INSPECTION THE APPRIASER WAS ABLE TO MAKE ON THE SUBJECT SITE. THE OPINIONS AND CONCLUSIONS IN THIS REPORT WERE DEVELOPED WITH CONSIDERATION FOR THE CLIENTS NEEDS AND ASSIGNMENT REQUIREMENTS. THIS REPORT IS NOT INTENDED FOR ANY OTHER USE. PARTIES (OTHER THAN THE CLIENT) WHO RECEIVE A COPY OF THIS REPORT AS A CONSEQUENCE OF DISCLOSURE REQUIREMENTS IMPOSED BY LAW OF REGULATION APPLICABLE TO THE APPRAISER'S CLIENT OR IN ANY OTHER MANNER DO NOT BECOME INTENDED USERS OF THIS REPORT. PARTIES RECEIVING A REPORT COPY FROM THE CLIENT DO NOT BECOME PARTY TO APPRAISER/CLIENT RELATIONSHIF
