Rocket Close, LLC
Rocket Mortgage, LLC
1050 Woodward Ave
Detroit, MI, 48226

File Number: 92373924

In accordance with your request, I have appraised the real property at:

8829 J Sheehan St
Elk Grove, CA 95624

The purpose of this appraisal is to develop an opinion of the market value of the subject property, as improved.

In my opinion, the market value of the property as of June 3, 2025 is:

$590,000
Five Hundred Ninety Thousand Dollars

The attached report contains the description, analysis and supportive data for the conclusions, final opinion of value, descriptive photographs, limiting conditions and appropriate certifications.

Kyle Ivie

Uniform Residential Appraisal Report

3564123573
File No. 92373924

The purpose of this summary appraisal report is to provide the lender/client with an accurate, and adequately supported, opinion of the market value of the subject property.

SUBJECT

Summary of Sales Comparison Approach. See Attached Addendum

Indicated Value by Sales Comparison Approach $ 590,000

RECONCILIATION

Indicated Value by: Sales Comparison Approach $ 590,000 Cost Approach (if developed) $ 588,900 Income Approach (if developed) $ 0

The sales comparison approach is felt to be the best indicator of the subject's current market value. The cost approach was also completed and supports the final estimate of value. The income approach to value was not completed as it is typically not necessary or relevant to the valuation of single family residences.

This appraisal is made [X] "as is," [ ] subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, [ ] subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or [ ] subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: See Attached Addendum

Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is $ 590,000 as of 06/03/2025 , which is the date of inspection and the effective date of this appraisal.

ADDITIONAL COMMENTS

Clarification of Intended Use and Intended User:

The Intended User of this appraisal report is the Lender/Client. The Intended Use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Users are identified by the appraiser.

COST APPROACH

COST APPROACH TO VALUE (not required by Fannie Mae)

Provide adequate information for the lender/client to replicate the below cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value) The subject's land value is estimated based on comparable vacant land sales in the area. Due to the scarcity of vacant land sales in the area, the extraction method of valuation was also considered and a combination of the two methods resulted in a land value conclusion of $115,000. The high land to value ratio for the subject is typical for the area and does not negatively impact the marketability of the subject.

ESTIMATED ☐ REPRODUCTION OR ☒ REPLACEMENT COST NEW

Source of cost data Dwellingcost.com

Comments on Cost Approach (gross living area calculations, depreciation, etc.)

Gross living area calculations are based on the measurements taken by the appraiser at the time of the inspection. The physical depreciation of the property is estimated based on the observations of wear and tear in association with the property.

OPINION OF SITE VALUE				= $ 115,000
Dwelling	1,887 Sq. Ft. @ $	210.62		= $ 397,440
	Sq. Ft. @ $			= $ 0

Are the common elements leased to or by the Homeowners' Association? ☐ Yes ☐ No If Yes, describe the rental terms and options.

Describe common elements and recreational facilities.

Uniform Residential Appraisal Report

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

Uniform Residential Appraisal Report

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

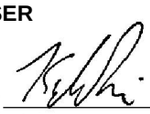

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Summary of Sales Comparison Approach

Uniform Appraisal Dataset Definitions

Condition Ratings and Definitions

C1 The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.*

*Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2 The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

*Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3 The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

*Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4 The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

*Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5 The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

*Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6 The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

*Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1 Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2 Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3 Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4 Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5 Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6 Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.
Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.
An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/ or expansion.
A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

The number of full and half baths is reported by separating the two values by a period. The full bath is represented to the left of the period. The half bath count is represented to the right of the period. Three-quarter baths are to be counted as a full bath in all cases. Quarter baths (baths that feature only toilet) are not to be included in the bathroom count.

ADDENDUM

Borrower: Tai Bao Trinh		File No.: 92373924
Property Address: 8829 J Sheehan St		Case No.: 3564123573
City: Elk Grove	State: CA	Zip: 95624
Lender: Rocket Mortgage, LLC		

Legal Description
Lot 082 Plan & Elevation Residence 1885-226 CW/F Lot/Unit No. 082 Tract No. 14-023 Color 9 situated in the City of Elk Grove/County of Sacramento, California, commonly known as 8829 J Sheehan Street, Elk Grove, CA 95624

Neighborhood Description
The subject's neighborhood is located roughly 11.5 miles southeast of downtown Sacramento.

CA Highway 99, a local traffic artery, is within 2 miles of the subject.

The subject has good access to schools, shopping, recreation, employment centers, hospitals and freeways.

The subject is served by the Elk Grove Unified School District.

Neighborhood Market Conditions
Market concessions are typically 0-3% of a home's purchase price.

There have been 13 comparable sales in the past year and are currently 5 comparable active listings and 4 pending sales on the market. This indicates that the current market is in a state of under supply and there is high demand for homes in the area.

MLS research indicates that property values in the subject's area have increased by roughly 4% year over year and have become relatively stable over the past year. Sellers are typically receiving 99% of their listing prices and the average marketing time is less than 90 days.

REO and short sale properties make up less than 10% of the area's active listings and recent sales. They do not appear to be having a significant impact on the market in the neighborhood and typically sell for 5-15% less than typical arms length sales that are not considered to be distressed.

Highest and Best Use
The appraiser has concluded the highest and best use of the property, as improved, to be its current use. This opinion is supported by the fact that the improved property is physically possible (see improvements description and pictures), is a legal use (see site section/zoning), is financially feasible (see sales comparison approach for sales of similar properties) and is considered to be the maximally productive use (improvements contribute positively to the site and it would not be feasible to change them to a more productive use without substantial capital improvement).

Gross Living Area (GLA)
The subject's Living Area/Square Footage per local county Assessor is 1,885 square feet. The GLA reported herein was obtained from on-site measurements in accordance with the ANSI Standard. The variance from the local county Assessor's Living Area/Square Footage is nominal.

Subject Gross Living Area (GLA) and ANSI
ANSI Compliance
I have measured the subject property in compliance with "SQUARE FOOTAGE– METHOD FOR CALCULATING: ANSI Z765-2021"

This method for calculating the square footage of the subject property has a variety of requirements and nuances that county assessors, realtors, etc. may not abide by. As such, the gross living area (GLA), measurements, calculations, and reported areas in this appraisal report may markedly differ from other sources.

Statement of Finished Square Footage
The finished above-grade square footage for the subject property can be found in the Improvements Section and on the sketch or within sketch calculations.

Bracketing home size under ANSI
With the new ANSI reporting requirement and calculation method for subject GLA and the data sources available for the comparable sales/listings, the subject GLA *may appear* un-bracketed in the Sales Comparison Analysis. This is a result of comparable sales/listings market data (assessors, MLS, etc.) being misaligned with the new ANSI GLA requirement from Fannie Mae. To better illustrate the compatibility of the comparables with the subject and document assessors/MLS data on the subject and comparable sales/listings, I have attached an MLS sheet for the MLS comparable sales as exhibits to this appraisal report. Ultimately, the subject living area is bracketed although it may not appear that way on the sales grid. Please see attached MLS sheet for the MLS comparable sales.

Note to reader regarding the size of the subject property
This appraisal report complies with recently imposed Fannie Mae GLA reporting requirements. The total above grade living area of the subject property may be reported differently on local assessors' records, MLS, prior appraisal reports, etc. The difference is most likely attributable to differences between the way appraisers are now required to report GLA under Fannie Mae reporting requirements and the way alternative data sources report living area or finished square footage. When applied correctly, the new methodology appraisers must use does not "devalue" the subject or diminish its overall size. For ease of comparison, it may be convenient for the reader to refer to the attached MLS sheet for the MLS comparable sales.

Additional Features
The subject has a forced air heating system, central air conditioning, double pane windows, solar panels (owned), a 2 car garage, a front porch, and a back porch.

The subject did have smoke detectors and carbon monoxide detectors present at the time of the inspection. The hot water heater was tankless.

All of the utilities were on and working during the time of the inspection.

Comments on Sales Comparison
All of the comparables used in this report are felt to be within the subject property's market area.

It is noted that comparables 1, 2, and 5 were not listed on Metrolist. This is due to the fact that they sold directly from the builder and are listed on KB Home's website (www.kbhome.com). Comparables 1 and 5 are also model matches of the subject property.

According to the Appraisal Log provided by KB Homes, the subject property has a base price of $528,990 with $40,108 worth of upgrades, a $3,000 lot premium, and a closing cost credit of $10,000. Comparable #1 has a base price of $554,990 with $32,163 worth of upgrades, a $5,000 lot premium, and a closing cost credit of $10,000. Comparable #2 has a base price of $505,990 with $22,678 worth of upgrades, a $12,000 lot premium, and a closing cost credit of $20,000. Comparable #5 has a base price of $569,990 with $11,327 worth of upgrades, a $7,557 lot premium, and a closing cost credit of $10,000. All differences in base prices, upgrades, lot premiums, and closing cost credits were taken into consideration during the reconciliation process. The builder of comparables 3, 4, and 6 is The New Home Company. The appraiser was unable to gather any information on the upgrades and lot premiums of the comparables outside of the subject's project, but it was taken under consideration.

No time adjustments were deemed necessary for the comparable sales used in the report as values in the subject property's market area have become relatively stable over the past year based on MLS statistical analysis, however their dates of sale were taken into consideration during the reconciliation process. In order to create more accurate results for market trends in the area, it was deemed necessary to expand passed 2 of the subject property's neighborhood boundaries with

Borrower: Tai Bao Trinh		File No.: 92373924
Property Address: 8829 J Sheehan St		Case No.: 3564123573
City: Elk Grove	State: CA	Zip: 95624
Lender: Rocket Mortgage, LLC		

Highway 99 to the west and Bond Rd to the south.

No adjustment was made to the pending sales despite the typical listing to sales price ratio of 99% in the area as they are new construction where price reductions are felt to be prevalent and it was taken into consideration during the reconciliation process.

It is noted that the subject property is in relatively close proximity to a railroad, however no noise could be heard during the time of the inspection, no location adjustment was deemed necessary, and it was taken into consideration during the reconciliation process. Comparables 1 ,2, and 5 also bracket this factor.

GLA is adjusted at $125 per square foot.

Bathrooms are adjusted at $10,000 per full bathroom and $5,000 per half bathroom. Bedrooms are adjusted at $10,000 each.

Site adjustments are made to the comparables at a rate of $1 per square foot for differences of more than 1,000 square feet.

It is noted that the subject property's site size is not bracketed by the comparable sales used in the report, however comparables 1 and 2 are felt to be similar enough in this regard as differences are less than 1,000 sf and it was taken into consideration during the reconciliation process.

Quality and condition adjustments are made to comparables based on the information obtained from the drive-by inspection of each property as well as the information available from MLS agent detail reports, MLS photographs, and county records. Actual age differences are taken into consideration when making condition adjustments and therefore separate age adjustments are not necessary.

No condition adjustments were deemed necessary for the comparables used in the report as they are new construction like the subject property, however any differences in wear and tear were taken into consideration during the reconciliation process.

Owned solar panels are adjusted at $15,000.

It is noted that the solar panels of comparables 2 and 6 are currently "pending" or "to be determined" (TBD), however no adjustments were deemed necessary and it was taken into consideration during the reconciliation process.

All adjustments made to the comparables including site, GLA, bed/bath count, and amenities were made by using the paired sales analysis, are based on the market's reaction to each characteristic difference, and were further supported by the fact that the adjusted sales price range of the comparables narrowed as a result of applying those adjustments.

The value range indicated by the sold comparables is $581,808 to $645,470. Each of the comparables were given strong consideration during the reconciliation process. Comparable #1 was given the most weight as it is a model match of the subject property that is the closest in proximity located on the same street, required no adjustment, and is felt to support the indicated value, however it is the most dated sale used in the report, has a higher base price with inferior upgrades and a superior homesite premium. Comparable #2 was given weight as it is the most recent sale used in the report that is KB Homes-built located on the same street as the subject property and has the same bed/bath count, however it has inferior GLA and upgrades, a superior homesite premium, required a relatively high amount of adjustment, and is felt to represent the lower end of the value range. Comparable #3 was given weight as it is new construction like the subject property that has the same bed/bath count, however it is a relatively dated sale that is located nearly a mile away, has superior GLA, and is felt to fall roughly in the middle of the value range. Comparable #4 was given weight as it is a recent sale that is new construction like the subject property, however it the furthest in proximity located nearly a mile away, has superior GLA and bed/bath count, required the most amount of adjustment, and is felt to represent the upper end of the value range. The pending sales suggest that the indicated value is reasonable for the current market conditions. The final estimate of value for the subject as of the effective date of this report falls closer to the lower end of the range at $590,000 all factors considered.

Due to a lack of recent sales in close proximity to the subject it was necessary to exceed the recommended 6 month guideline. It was also necessary to exceed the recommended 10% line adjustment guideline in order to compensate for all of the value related differences between the subject and comparables.

It is noted that the subject's estimated value is higher than the predominant value for the area. This is mainly due to the fact that the subject is larger and newer than many of the properties in the neighborhood. The subject is not felt to be an over-improvement and its marketability is considered to be typical for the area.

It is noted that the final opinion of value of the subject property does not fall within the neighborhood sales range within the past 12 months, however this is due to the fact that comparables 1 and 2 were not listed on MLS as they sold directly from the builder. It is also noted that the unadjusted sales price of comparable #4 falls outside of the price range defined in the neighborhood housing section, however this is due to the fact that it is located in a different neighborhood with larger homes that are selling higher and there were only 15 sales in the subject property's neighborhood over the past year based on MLS statistical analysis.

Additional Appraiser Certification
I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

Exposure Time
A reasonable exposure time for the subject property at the opinion of value indicated is considered to be similar to that of the as the estimated marketing time or less than 90 days.

Conditions of Appraisal
This appraisal is being made "as is". This report is considered to be an Appraisal Report as defined by Standards Rule 2-2 of the USPAP. No liability is assumed for the structural or mechanical elements of the property.

Appraiser Insurance Requirements
The appraiser is aware that the client has certain insurance requirements in place for vendors of appraisal services. Proof of insurance has been provided and is on file with the entity that engaged First American Staff Appraisals for this assignment.

Market Conditions Addendum to the Appraisal Report

3564123573
File No. 92373924

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 8829 J Sheehan St City Elk Grove State CA Zip Code 95624

Borrower Tai Bao Trinh

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

MARKET RESEARCH & ANALYSIS

Inventory Analysis	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend

Absorption Rate (Total Sales/Months)	1.33	1.00	0.67	☐ Increasing	☒ Stable	☐ Declining
Total # of Comparable Active Listings	N/A	N/A	9	☐ Declining	☒ Stable	☐ Increasing
Months of Housing Supply (Total Listings/Ab.Rate)	N/A	N/A	13.43	☐ Declining	☒ Stable	☐ Increasing
Median Sale & List Price, DOM, Sale/List %	**Prior 7-12 Months**	**Prior 4-6 Months**	**Current - 3 Months**	**Overall Trend**		
Median Comparable Sale Price	672,220	665,000	744,793	☐ Increasing	☒ Stable	☐ Declining
Median Comparable Sales Days on Market	12	108	77	☐ Declining	☒ Stable	☐ Increasing
Median Comparable List Price	687,490	706,450	716,085	☐ Increasing	☒ Stable	☐ Declining
Median Comparable Listings Days on Market	N/A	N/A	46	☐ Declining	☒ Stable	☐ Increasing
Median Sale Price as % of List Price	98.47%	95.81%	99.23%	☐ Increasing	☒ Stable	☐ Declining
Seller-(developer, builder, etc.)paid financial assistance prevalent? ☐ Yes ☒ No				☐ Declining	☒ Stable	☐ Increasing

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.).

Seller Concessions are typically 0-3% of the purchase price. The appraiser does not have access to statistics pertaining to seller concessions however concessions do have a tendency to increase when supply exceeds demand.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

REO and short sale properties make up less than 10% of the area's active listings and recent sales. They do not appear to be having a significant impact on the market in the neighborhood and typically sell for 5-15% less than typical arms length sales that are not considered to be distressed.

Cite data sources for above information. Metrolist/Data Tree

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

The data provided by the 1004MC is not felt to be sufficient for the determination of market trends in the subject's area. Additional statistics were gathered and analyzed for that purpose. Please see the market conditions section of the main form for additional analysis and market trend conclusions.

CONDO / CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project , complete the following: Project Name:

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)				☐ Increasing	☐ Stable	☐ Declining
Absorption Rate (Total Sales/Months)				☐ Increasing	☐ Stable	☐ Declining
Total # of Active Comparable Listings				☐ Declining	☐ Stable	☐ Increasing
Months of Unit Supply (Total Listings/Ab. Rate)				☐ Declining	☐ Stable	☐ Increasing

Are foreclosure sales (REO sales) a factor in the project? ☐ Yes ☐ No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

APPRAISAL AND REPORT IDENTIFICATION

This report was prepared under the following USPAP reporting option:

- [X] Appraisal Report — A written report prepared under Standards Rule 2-2(a).
- [ ] Restricted Appraisal Report — A written report prepared under Standards Rule 2-2(b).

Reasonable Exposure Time

My opinion of a reasonable exposure time for the subject property at the market value stated in this report is: _____

A reasonable exposure time for the subject property at the opinion of value indicated is considered to be similar to that of the as the estimated marketing time or less than 90 days.

Additional Certifications

- [X] I have performed NO services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- [ ] I HAVE performed services, as an appraiser or in another capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment. Those services are described in the comments below.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 04/07/2025

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
