COST APPROACH

Provide adequate information for the lender/client to replicate the below cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value) The opinion of site value was derived via the extraction method including an MLS search of recent vacant site sales in the subject's market area. The high land to value ratio is typical for similar aged homes and lot sizes in the area, and does not affect marketability.

RECONCILIATION

Indicated Value by: Sales Comparison Approach $ 550,000 Cost Approach $ 564,600 Income Approach (if developed) $ 0

The Sales Comparison Approach is the most relevant analysis in this assignment. The cost approach has been developed as a supporting analysis. The income approach was not developed as it was not appropriate for this assignment type. The subject property is not considered an income producing property, nor would the typical buyer value the property as an income producing property.

This appraisal is made [X] "as is," [ ] subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, [ ] subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or [ ] subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: This appraisal is being made "as-is". No liability is assumed for the structural or mechanical elements of the property.

Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is $ 550,000 as of 11/25/2024 , which is the date of inspection and the effective date of this appraisal.

ADDITIONAL COMMENTS

Subject Property Identification:

Sources of Information:
The appraisal is based on the information gathered from public records; viewing of the subject property, neighborhood and comparable properties; and other sources specifically identified in this report. When conflicting information has been discovered, the sources deemed most reliable have been used.

Intended Use and Intended User: HUD/FHA and lender / client

The Intended User of this appraisal report is the Lender/Client. The Intended Use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Users are identified by the appraiser.

Data provided on closing data was obtained from 'RealList,' a data service provided by the local multiple listing service (NWMLS) as part of the multiple listing system. This is a computer service that gathers their information from county offices. The information is updated at least monthly.

The appraiser maintains sole control of affixing his/her signature to the report, as required by USPAP and it is protected against unauthorized changes.

The title report was not reviewed as a part of this assignment. It is assumed the current owner has a marketable title.

No employee, director, officer, or agent of the lender, or any other third party acting as a joint venture partner, independent contractor, appraisal management company, or partner on behalf of the lender has influenced or attempted to influence the development, reporting, result, or review of this assignment through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery or in any other manner.

Manufactured Home Appraisal Report

This report form is designed to report an appraisal of a one-unit manufactured home; including a manufactured home in a planned unit development (PUD). A Manufactured home located in either a condominium or cooperative project requires the appraiser to inspect the project and complete the project information section of the Individual Condominium Unit Appraisal Report or the Individual Cooperative Interest Appraisal Report and attach it as an addendum to this report.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Manufactured Home Appraisal Report

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I also developed the cost approach to value as support for the sales comparison approach. I have adequate comparable market and cost data to develop reliable sales comparison and cost approaches for this appraisal assignment. I further certify that I considered the income approach to value but did not develop it, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

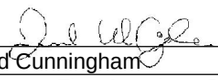

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Neighborhood Description
The subject neighborhood is considered to be a growth ring of Graham. SR-7, a local traffic artery, is within 3 miles, and offers access to schools, shopping, employment, recreation, hospitals, and freeways. The subject is served by the Bethel School District. There is some limited new construction activity in the subject's surrounding areas that provide competition to the resales of existing homes.

The other land use percentage reported is for vacant and or parklands. This does not affect marketability.

Neighborhood Market Conditions
Market concessions are typically 0 to 3 points paid. The subject's market appears to have been stable over the previous 12 months, per the NWMLS statistics on median sales price per square foot. There is currently an approximate 3-6 month inventory of homes on the market which is considered to be in balance. Marketing times currently range from 0-3 months typically and vary based on differences in marketing and pricing.

Time adjustments have been analyzed based off of the FHFA House Price Index Datasets: Quarterly All Transaction Indexes, Three Digit Zip Codes (Developmental Index, Not Seasonally Adjusted). As well as NWMLS statistics on median sales price per square foot.

Median sales price per square foot for single family residential manufactured homes within a 5 mile radius of the subject property has risen from $294.91 to $301.22 over the previous 12 months, appraiser considers this to be stable to slightly increasing and warranting no time adjustments. Per the NWMLS statistics.

Zoning Compliance
According to Pierce County, the subject property is zoned R10, which has a minimum base density of 1 DU per 10 acres. The subject property lot size is 1.25 acres, which is considered to be legal non-conforming. This does not affect marketability and if destroyed the property could be be rebuilt as-is.

Highest and Best Use
The subject's current use is the subject's highest and best use. Highest and best use has been determined based on the following tests: legally permissible; physically possible; financially feasible; maximally productive. It would not be financially feasible to remove current improvements and rebuild, nor would it be maximally productive.

Site Comments
No obvious adverse site conditions or external factors were noted. Improvements face east. The subject is elevated approximately one foot above street level. The landscaping is typical. The subject has residential/woods views. The subject property has a private septic, this is typical for the area and does not affect marketability. Public sewer not currently available to the property. Septic appears to meet FHA/HUD requirements and distance codes, and was free from obvious defect.

Additional Features
The subject has an average efficiency FA heating system and insulated windows. In addition the subject property has a porch, deck, carports, detached garage, raised and vaulted ceiling, granite counter tops, custom built-ins, walk in closets, panel doors, stainless steel appliances, carports, and detached garage.

Comments on Sales Comparison
Please note that it was necessary to exceed the typically recommended 1 mile guideline due to the rural and spread out nature of the surrounding area and a lack of market activity of properties with similar site area, age, design, living space, and utility- and the need to bracket features.

Appraiser unable to utilize two sales from within 90 days due to a lack of available more near match sales data for the subject property. The strongest indicators of market value have been utilized within report and adjustments made are market reaction based.

Comparable #4 is a local listing which received a 0% adjustment for the typical listing to sales ratio for active listings in the area.

Comparables #2, #3, and #4 received typical area market reaction to properties with similar features based condition adjustments based on differences in the amount of updating and maintenance, per the physical inspections and available MLS descriptions and photos. Comp #2 sold in C2 or like new condition. Comps #3 and #4 have higher effective ages, more wear and tear, and more dated features.

GLA was adjusted at $75 per square foot. Lot size adjustments were made at $10,000 per acre. Features adjustments(such as garage, shed, patio, deck, etc) and items listed above adjustments, are typical market reaction based. No fireplace, or actual age adjustments were made due to insufficient market support. Above listing items have all been given typical market reaction based adjustments to properties with similar features, so as to best reflect buyer preference within the market area.

Please note that it was necessary to utilize an MLS pictures within report due to long private driveways, which are common for the area. Appraiser photos included within report.

The subject property's market value is above the predominant values for the area market, this is not due to over improvements and does not effect marketability. This is due to age/condition and site appeal.

Median sales price per square foot for single family residential manufactured homes within a 5 mile radius of the subject property has risen from $294.91 to $301.22 over the previous 12 months, appraiser considers this to be stable to slightly increasing and warranting no time adjustments. Per the NWMLS statistics.

Appraiser had to exceed the difference in GLA and actual age, and both comparable sales price range and adjusted comparable sales price range guidelines due to a lack of available more meaningful and near match sales comparable data for the subject property and the need to bracket features. The strongest indicators of market value have been considered and utilized by the appraiser.

All of the comparables used in this report have meaningful attributes and were considered during the reconciliation of value. Most weight was placed on comps #1 and #2 due to closer proximity. Although not weighted, listing comp #4 was taken into consideration during the final reconciliation of value. Comp #1 is a sale that has closed within the 0-90 days from effective date of report window.

Extra Comments
Angled photos of comparables have been provided, except in the case where landscaping, longer driveways, or neighboring improvements blocked angled photo

This report is considered to be an Appraisal Report as defined by Standards Rule 2-2 of the USPAP.

Appraiser Insurance Requirements:
The appraiser is aware that the client has certain insurance requirements in place for vendors of appraisal services. Proof of insurance has been provided and is on file with the entity that engaged First American Mortgage Solutions for this assignment.

The data provided by the 1004MC is not felt to be sufficient for the determination of market trends in the subject's area. Additional statistics were gathered and analyzed for that purpose. Please see the market conditions section of the main form for additional analysis and market trend conclusions. The overall trends marked in the market condition section of the main form reflect the trends produced by the general market statistics gathered rather than the limited sample of sales provided in the 1004MC, which were deemed unreliable due to small sample size.

Appraiser Independence Certification:
No employee, director, officer, or agent of the lender, or any other third party acting as joint venture partner, independent contractor, appraisal management company, or partner on behalf of the lender, shall influence or attempt to influence the development, reporting, result, or review of an appraisal through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery, or in any other manner. I have not been contacted by anyone other than the intended user (lender/client as identified on the first page of the report), borrower, or designated contact to make an appointment to enter the property.

FIRREA Statement:
Title XI FIRREA compliance statement: Appraiser certifies that the appraisal was prepared in accordance with the requirements of Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, as amended (12 U.S.C. 3331 et seq), and any implementing regulations.

SCOPE OF WORK

Subject Property Identification:
The appraiser has viewed all readily accessible areas of the dwelling (and any other building structure located on the property). This complete visual inspection is not intended to be the same depth or for the same purpose as a home inspection. The appraiser has viewed the property solely for valuation purposes and to observe property characteristics that a typical purchaser would consider in their decision-making process, as well as those items outlined in the assumptions and limited conditions and certification to this appraisal. Personal property was not included in the appraised value.

Sources of Information:
The appraisal is based on the information gathered from public records; viewing of the subject property, neighborhood and comparable properties; and other sources specifically identified in this report. When conflicting information has been discovered, the sources deemed most reliable have been used.

At the request of the client, this appraisal report has been prepared in compliance with the Uniform Appraisal Dataset (UAD) from Fannie Mae and Freddie Mac. The UAD requires the appraiser to use standardized responses that include specific formats, definitions, abbreviations, and acronyms. The appraiser attempted to obtain an adequate amount of information in the normal course of business regarding the subject and comparable properties. Some of the standardized responses required by the UAD, especially those in which the appraiser has not had the opportunity to verify personally or measure, could mistakenly imply greater precision and reliability in the data than is factually correct or typical in the normal course of business. Examples include condition and quality ratings as well as comparable sales and listing data. Not every element of the subject property was viewable and comparable property data was generally obtained from third-party sources. Consequently, this information should be considered an “estimate” unless otherwise noted by the appraiser.

Sales concessions have been requested from the interested parties and reported when available.

FHA:
Head and shoulders inspection of the crawl space was completed.

The Subject property meets all FHA/HUD minimum revised guidelines as outlined by Handbook 4000.1, and all applicable mortgagee letters.

Appliances marked above are built in and in working order. As part of the FHA property observation process, a cursory operation of appliances, plumbing, electrical and mechanical systems has been completed to ascertain if they are operational (turn on/off without any observable anomalies). This observation is limited to readily observable conditions and is not as comprehensive an inspection as one performed by a licensed home inspector.

Intended use of the appraisal is solely to assist FHA in assessing the risk of the Property securing the FHA-insured Mortgage. FHA appraisal does not guarantee that the Property is free from defects.

The stairs and railings meet the Property Acceptability Criteria which include HUD's Minimum Property Requirements (MPR) as outlined in the Handbook 4000.1 FHA Single Family Housing Policy Handbook and are not a safety issue.

The subject property is located within a PUD. Common amenities include walkways, parking areas, and some landscaping areas. Comps used within report have similar amenities. Common areas were in good to average condition and free from obvious defective paint surfaces.

The subject dwelling has never been installed in a different location.

ANSI Compliance
I have measured the subject property in compliance with “SQUARE FOOTAGE– METHOD FOR CALCULATING: ANSI Z765-2021” to the nearest inch or tenth of a foot.

Market Conditions Addendum to the Appraisal Report

566-3935413
File No. 2726740

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 21408 95th Ave E City Graham State WA Zip Code 98338

Borrower Chapman, Jeffrey Lee

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.).

See Attached Addendum

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

REO listings/sales currently make up approximately 0-2% of the area market. These properties do not appear to be driving the market, and typically sell for 3-25% less than arms length transactions.

Cite data sources for above information. The above data was verified using county records and the NWMLS.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

Market concessions are typically 0 to 3 points paid. The subject's market appears to have been stable over the previous 12 months, per the NWMLS statistics on median sales price per square foot. There is currently an approximate 3-6 month inventory of homes on the market which is considered to be in balance. Marketing times currently range from 0-3 months typically and vary based on differences in marketing and pricing.

Median sales price per square foot for single family residential manufactured homes within a 5 mile radius of the subject property has risen from $294.91 to $301.22 over the previous 12 months, appraiser considers this to be stable to slightly increasing and warranting no time adjustments. Per the NWMLS statistics.

CONDO / CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project , complete the following: Project Name:

Market Analysis: Seller Concessions Comments

Seller concessions have been stable in frequency over the previous 12 months. The most common forms are seller contributions towards closing costs and/or deferred maintenance. Appraiser does not have access to data on previous active listings in the area, thus these areas have been left shaded out.

The data provided by the 1004MC is not felt to be sufficient for the determination of market trends in the subject's area. Additional statistics were gathered and analyzed for that purpose. Please see the market conditions section of the main form for additional analysis and market trend conclusions. The overall trends marked in the market condition section of the main form reflect the trends produced by the general market statistics gathered rather than the limited sample of sales provided in the 1004MC, which were deemed unreliable due to small sample size.

FHFA HPI® for Three-Digit ZIP Codes (All-Transactions Index)

Developmental Indexes

ıese indexes should be considered developmental. As with the standard FHFA HPI, revisions to this index may reflect the impact
a. Indexes are calibrated using appraisal values and sales prices for mortgages bought or guaranteed by Fannie Mae and Fredd
discussed in the Technical Note published with the 2014Q4 FHFA HPI, in cases where sample sizes are small for the three-digit ZI
a, the index reported reflects the index for the Metropolitan Statistical or state nonmetropolitan area. The table reports whether tr
ıe native three-digit ZIP index or if it is an index for one of the other areas.
