APPRAISAL OF

LOCATED AT:

65 Western Reach
Red Bank, NJ 07701

FOR:

TD Bank N.A
6000 Atrium way
Mount Laurel, NJ, 08054

BORROWER:

Stephan Christine

AS OF:

August 9, 2024

BY:

Christopher Ruggiero

Servicelink
TD Bank N.A
6000 Atrium way
Mount Laurel, NJ, 08054

File Number: 16626595

In accordance with your request, I have appraised the real property at:

65 Western Reach
Red Bank, NJ 07701

The purpose of this appraisal is to develop an opinion of the market value of the subject property, as improved.

In my opinion, the market value of the property as of August 9, 2024 is:

$325,000
Three Hundred Twenty-Five Thousand Dollars

The attached report contains the description, analysis and supportive data for the conclusions, final opinion of value, descriptive photographs, limiting conditions and appropriate certifications.

Christopher Ruggiero

SUMMARY REPORT

Exterior-Only Inspection Individual Condominium Unit Appraisal Report

File No. 16626595

The purpose of this summary appraisal report is to provide the lender/client with an accurate, and adequately supported, opinion of the market value of the subject property.

Summary of Sales Comparison Approach See Attached Addendum

Indicated Value by Sales Comparison Approach $ 325,000

INCOME

INCOME APPROACH TO VALUE (not required by Fannie Mae)

Estimated Monthly Market Rent $ X Gross Rent Multiplier = $ Indicated Value by Income Approach

Summary of Income Approach (including support for market rent and GRM) NOT APPICABLE

RECONCILIATION

Indicated Value by: Sales Comparison Approach $ 325,000 Income Approach (if developed) $

The sales comparison analysis is the best indicator of value because it utilizes actual market sales for verification. The income approach was not applied due to the owner/occupant nature of Single family homes which are not commonly used as income producing properties.

This appraisal is made [X] "as is," [ ] subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, [ ] subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or [ ] subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: See Attached Addendum

Based on a visual inspection of the exterior areas of the subject property from at least the street, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is $ 325,000 as of 08/09/2024 , which is the date of inspection and the effective date of this appraisal.

Exterior-Only Inspection Individual Condominium Unit Appraisal Report

File No. 16626595

This report form is designed to report an appraisal of a unit in a condominium project or a condominium unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect and analyze the condominium project, (3) inspect the neighborhood, (4) inspect each of the comparable sales from at least the street, (5) research, verify, and analyze data from reliable public and/or private sources, and (6) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Exterior-Only Inspection Individual Condominium Unit Appraisal Report

File No. 16626595

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I have performed a visual inspection of the exterior areas of the subject property from at least the street. I have reported the condition of the improvements in factual, specific terms. I have identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

Exterior-Only Inspection Individual Condominium Unit Appraisal Report

File No. 16626595

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

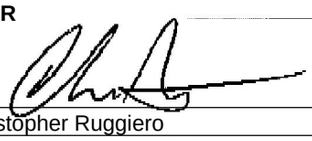

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

SUMMARY REPORT

Uniform Appraisal Dataset Definitions

File No. 16626595

Condition Ratings and Definitions

C1 The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.*

*Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2 The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

*Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3 The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

*Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4 The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

*Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5 The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

*Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6 The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

*Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1 Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2 Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3 Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4 Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5 Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6 Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.
Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.
An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/ or expansion.
A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

The number of full and half baths is reported by separating the two values by a period. The full bath is represented to the left of the period. The half bath count is represented to the right of the period. Three-quarter baths are to be counted as a full bath in all cases. Quarter baths (baths that feature only toilet) are not to be included in the bathroom count.

ADDENDUM

Borrower: Stephan Christine		File No.: 16626595
Property Address: 65 Western Reach		Case No.:
City: Red Bank	State: NJ	Zip: 07701
Lender: TD Bank N.A		

Neighborhood Description
The area consists of a wide variety of properties & lot sizes. All of the various support, facilities, schools, shopping and access to employment centers are in the area.

Neighborhood Market Conditions
With current market conditions,marketing time is estimated to be between 0-3 months for homes which are reasonably priced. Marketing time may be lower for some sales which have been priced aggressively. Conversely,
marketing times have been much higher for homes which have been over-priced. This was evident in the comparable sales utilized in this report. While conventional loans are the most prevalent type of financing, cash sales are not uncommon. FHA and VA financing is not uncommon. There have also been some short sales, as well as bank owned foreclosure sales and listings which may have a further negative effect on market values.

Market values are stable.

Sale/Transfer History Research Comments
TITLE ON THE SUBJECT PROPERTY HAS NOT BEEN TRANSFERRED WITHIN THE LAST 36 MONTHS, UNLESS STATED ON THE SECOND PAGE OF THE REPORT. COUNTY TAX DATA IS USED TO OBTAIN INFORMATION REGARDING PREVIOUS SALES.

Comments on Sales Comparison
An investigation of the market indicates the above sales to be the most recent and similar to the subject property. All GLA's of comparables were obtained through County Data, MLS Data, Assessors Data and Visual Inspections. In regard to the GLA, no adjustment is given to any comps when the difference is +-100 square feet from that of the subject due to approximation in measurments. All adjustments, if needed, are based on paired sales. The sales dates for each comparable are closed/settlement dates.

The subject is located in an a 55+ community, which has a deed restriction. One homeowner must be at least 55 years old. The deed restriction has no negative effect on value due to there is an ample market for adult communities in the market area. All sales are located in the subject's community.

Comp 3 was adjusted for condition due to the difference in rating, calcualted at 10%.
The adjustment was based upon reviewing the MLS photos for comp 3. Comp 3 has been recently updated.

These comparables may have different ammenities as most comparables have slight differences. Any differences that warrant adjustments were made in the grid above. Differences in descriptions that have a zero adjustment is intentional by the appraiser because the analysis showed no effect on value.

During the reconciliation of the Sales Comparison approach weight was given to comps. These sales show and give a good representation of the overall market for the area and the subject property. Each sale, through adjustments, helps the appraiser determine an opinion of value that is representative of the current market and its conditions. For these reasons all sales were given weight in determining the opinion of value with most weight given to comps 1 and 2 due to have the same condition rating.

Predominant Price Versus Opinion of Market Value
The predominant price on page one is the MEDIAN of the value range for ALL residential properties within the subject neighborhood. By definition 50% of all homes in the subject neighborhood will be priced below the indicated predominant price and 50% of all homes will be priced above the indicated predominant price. The appraiser's opinion of market value is between the high and the low end of the price spectrum for comparable homes in the subject neighborhood and surround similar market areas. The relationship between the indicated predominant price and the opinion of market value is not a recognized method of determining whether a property is an over or under improvement for the area. The predominant price is not related in any manner to the MEDIAN sale price for COMPARABLE properties. Since the relationship of the neighborhood's predominant price to the appraiser's opinion of market value is not an indication of whether the subject is an over/under improvement, then if the appraiser deems the subject to actually be an over/under improvement an adequate discussion will be made under such heading. Absent such a narrative, the reader should understand that the subject is not significantly larger/smaller than the surrounding homes to be considered an over/under improvement.

Physical/effective age:
There is a difference between the subject's physical age and effective age. This difference is due to constant maintenance and updates to the subject over the years. This increases the economic age as the actual age increases, thereby lowering the effective age.

Conditions of Appraisal

The intended user of this report is the lender/client. The intended use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction. Subject to the stated scope of work, purpose of the appraisal, reporting requirements of this appraisal report form and definition of market value. No additional intended users are identified by the
appraiser.
The description of improvements of the subject property is derived by appraiser's personal viewing of the subject property. It is assumed that there are no defects to the property hidden by exterior siding, roof, floor or wall coverings or any other defect to the property not easily observed by a visual inspection. Mechanical systems are believed to be operational unless noted elsewhere in the appraisal report. The appraiser is not an expert in the structural integrity of foundations and cannot render an opinion on the structural integrity of the property. The inspection of the property by the appraiser is limited in scope and does not constitute a home inspection as defined by NJ statute.

Comments on Sales Comparison

The initial comparable sale search focused on sales, listings, and pending sales within the subject's town with transaction dates within the past 6 months, located within 1 mile from the subject, with similar GLA(within 300 sf), similar site size, similar location, similar style, similar market characteristics and similar age(within 20 years). Ammenities such as Inground Pools, Decks, Fireplaces, Finished Basements and any others are also taken into account when conducting the initial search. If the initial search does not yield the necessary 3 viable comparables the search parameters will be expanded to transaction dates within the past 9-12 months and outside a 1 mile radius from the subject property using the same physical characteristics. If it is necessary to utilize sales from an adjoining town it will be stated within the sales comparison section. The comparables used within the report were chosen based on the criteria listed above and are deemed to be the best value indicators for the subject.

CONSTRUCTION / BUILDING PERMIT COMMENTS:

Any research regarding whether or not the homeowner applied for and obtained the necessary building permits from the Township are beyond the scope of the appraisal assignment. The appraiser is not a home inspector, and while the appraiser does look for defects and notes overall condition, recent upgrades or additions that are apparent; it's the Lender's responsibility to obtain any necessary documents directly for the municipality or have the homeowner provide the Lender with any pertinent building permits, township inspection forms or a C.O. (Certificate of Occupancy).

SUMMARY REPORT

Market Conditions Addendum to the Appraisal Report

File No. 16626595

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 65 Western Reach City Red Bank State NJ Zip Code 07701

Borrower Stephan Christine

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

MARKET RESEARCH & ANALYSIS

Inventory Analysis	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)	11	9	10	☐ Increasing	☒ Stable	☐ Declining
Absorption Rate (Total Sales/Months)	1.83	3.00	3.33	☐ Increasing	☒ Stable	☐ Declining

Median Comparable Listings Days on Market	NA	NA	33	☐ Declining	☒ Stable	☐ Increasing
Median Sale Price as % of List Price	100.00%	99.00%	104.00%	☐ Increasing	☒ Stable	☐ Declining
Seller-(developer, builder, etc.)paid financial assistance prevalent? ☐ Yes ☒ No				☐ Declining	☒ Stable	☐ Increasing

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.).

concessions are stable.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

Cite data sources for above information. The MLS system is maintained by local realtors. Though generally accepted for sales and marketing. It can not necessarily be relied upon for the accurate depiction of the market trends.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

The data generated for the 1004 MC is based on a price range considered to be comparable to the subject's opinion of value. The data that is generated is for the ENTIRE TOWN/CITY/BOROUGH that the subject is located. The data source used to generate these number can not filter down to a specific neighborhood. It is therefore necessary to use sales from the ENTIRE TOWN/CITY/BOROUGH . The numbers generated may sometimes be different than those listed on the top of page 2 of the report. The numbers on page 2 usually represent comparable properties sold in the subject's neighborhood/local area as these are available when doing the initial comparable search. The MLS does not provide the active sales for the previous quarter of 7-12 month range, and is not required by Fannie Mae Guidelines, therefore no data will be given.

CONDO / CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project , complete the following: Project Name: Shadow Lake village

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)	11	9	10	☐ Increasing	☒ Stable	☐ Declining
Absorption Rate (Total Sales/Months)	1.83	3.00	3.33	☐ Increasing	☒ Stable	☐ Declining
Total # of Active Comparable Listings	NA	NA	7	☐ Declining	☒ Stable	☐ Increasing
Months of Unit Supply (Total Listings/Ab. Rate)	NA	NA	2.10	☐ Declining	☒ Stable	☐ Increasing

Are foreclosure sales (REO sales) a factor in the project? ☐ Yes ☒ No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project. Market values are stable.

Reasonable Exposure Time Comments

Reasonable Exposure Time

Exposure time is always presumed to precede the effective date of the appraisal. It is the estimated length of time the property would have been offered on the market, prior to the hypothetical sale, at the appraised value, on the effective date of the appraisal. It is a retrospective estimate based on an analysis of past events assuming a competitive and open market. This includes not only adequate, sufficient and reasonable time, but adequate, sufficient and reasonable effort. It is often expressed as a range and is based on the following:

1. Statistical information about days on the market, most commonly obtained from the local Multiple Listing Service.
2. Information gathered through sales verification.
3. Interviews with market participants.

Based on historical market conditions, the reasonable exposure time for the subject property would have been approximately 0-3 months. This is based on the analysis of current market trends in the general area and takes into account the size, condition and price range of the subject property and surrounding area. It presupposes that the listed price would be at or near the appraised value. It also assumes aggressive professional marketing by reputable local real estate offices.
