Summary of Sales Comparison Approach A diligent effort was made to find comparables sales that were similar to the subject in age, style, size, construction, and condition. The comparables chosen are the best representation of the subject's marketability at the time of inspection. All comparables are located within the same market area as the subject. Comparables 1 thru 3 are all closed sales. No date of sale and/or date of contract adjustments were deemed necessary due to the stable property values over the last twelve months per the 1004MC attached to this report. The contract date for the closed sales was noted from Realist.com. Comparables 4 and 5 are both listings and were both adjusted for purchase negotiations at 7% and then rounded to the nearest $500. Purchase negotiations were determined by the sales price as a percentage of the listing price over the last twelve months per the 1004MC attached to this report. Please refer to the "Additional Comments Section" and "Ending Addendum Section" for additional information of the subject and comparables included within this report. This appraisal is made ☒ "as is," ☐ subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or ☐ subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: _____

Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is $ 360,000 as of 01/13/2025 , which is the date of inspection and the effective date of this appraisal.

This report form is designed to report an appraisal of a unit in a condominium project or a condominium unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject unit, (2) inspect and analyze the condominium project, (3) inspect the neighborhood, (4) inspect each of the comparable sales from at least the street, (5) research, verify, and analyze data from reliable public and/or private sources, and (6) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. Summary of Sales Comparison Approach The subject has not been transferred in the last three years. None of

A diligent effort was made to find comparables sales that were similar to the subject in age, style, size, construction, and condition. The comparables chosen are the best representation of the subject's marketability at the time of inspection. All comparables are located within the same market area as the subject. Comparables 1 thru 3 are all closed sales. No date of sale and/or date of contract adjustments were deemed necessary due to the stable property values over the last twelve months per the 1004MC attached to this report. The contract date for the closed sales was noted from Realist.com. Comparables 4 and 5 are both listings and were both adjusted for purchase negotiations at 7% and then rounded to the nearest $500. Purchase negotiations were determined by the sales price as a percentage of the listing price over the last twelve months per the 1004MC attached to this report. Please refer to the "Additional Comments Section" and "Ending Addendum Section" for additional information of the subject and comparables included within this report.

Condition Ratings and Definitions

C1 The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.*

*Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2 The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

*Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3 The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

*Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4 The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

*Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5 The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

*Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6 The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

*Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1 Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2 Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3 Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4 Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5 Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6 Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.
Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.
An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/ or expansion.
A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

The number of full and half baths is reported by separating the two values by a period. The full bath is represented to the left of the period. The half bath count is represented to the right of the period. Three-quarter baths are to be counted as a full bath in all cases. Quarter baths (baths that feature only toilet) are not to be included in the bathroom count.

ADDENDUM

Borrower: Kevin Wilson		File No.: 16781304.1
Property Address: 3299 Megan Ln		Case No.: 0438733974
City: Naples	State: FL	Zip: 34109
Lender: Nationstar Mortgage LLC d/b/a Mr. Cooper		

FIRREA CERTIFICATION STATEMENT: The appraiser certifies and agrees that this appraisal report was prepared in accordance with the requirements of Title XI of the Financial Institutions, Reform, Recovery, and Enforcement Act (FIRREA) of 1989, as amended (12 U.S.C. 3331 et seq.), and any applicable implementing regulations in effect at the time the appraiser signs the appraisal certification.

AIR COMPLIANCE STATEMENT: No employee, director, officer, or agent of the lender, or any other third party acting as joint venture partner, independent contractor, appraisal management company, or partner on behalf of the lender, shall influence or attempt to influence the development, reporting, result, or review of an appraisal through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery, or in any other manner. I have not been contacted by anyone other than the intended user (lender/client as identified on the first page of the report), borrower, or designated contact to make an appointment to enter the property. I agree to immediately report any unauthorized contacts either personally by phone or electronically.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, unless noted in differently in the client requirements section below or in the Loan Purpose section above.

INTENDED USER: The Client listed above and any others that may be identified by the client that could have a need to rely on the information contained in the appraisal report.

COMPETENCY PROVISION: The appraiser has the appropriate knowledge and experience to complete this assignment competently. Appraiser qualifications are maintained in files and can be provided upon request.

SELF CONTAINMENT: This appraisal report is intended to be a complete summary report containing the information necessary to enable the reader to understand the appraiser's opinion. Any third party studies referred to, such as pest, hazardous materials, or structural reports have been verified by the appraiser to the extent of the assumptions and conclusions used.

PERSONAL PROPERTY: Any personal property involved in the transaction has been excluded from the valuation of the real property. Should a transaction, which includes personal property of sufficient value to affect the market value of the real property, be evident, a separate assessment of the personal property, fixtures, or intangible items will be identified and included in the report as a separate valuation.

DIGITAL SIGNATURE: This appraisal is digitally signed. This digital signature requires a security password known only by the appraiser. No changes can be made to any portion of this appraisal report once it has been digitally signed. The digital signature used in this report is an accurate representation of the appraiser's signature.

LIMITING CONDITIONS: The appraiser is not a licensed building contractor or a professional building inspector. I am not qualified to survey or analyze physical items that are not readily visible. If any of the parties in this transaction have questions or concerns regarding any mechanical or structural physical problems, conditions, infestation, contamination, or other issues regarding the subject property, an expert in that field or specialty should be consulted.

TO THE APPRAISER'S KNOWLEDGE THERE IS NO MEDIATION, PRE-LITIGATION, OR PENDING LITIGATION AT THE TIME OF THIS REPORT.

COMMENTS ON THE SUBJECT PROPERTY: The subject property is a single family, attached, two-level condominium. The floor plan is typical and conforms to the neighborhood. There are smoke detectors adequately placed around the home and around the bedroom areas. All of the utilities were on and in working order during the inspection. The kitchen sink was in working order. The subject property is habitable and there are no health or safety issues. Please see the sketch and photo addendums for more information.

SMOKE DETECTOR AND CARBON MONOXIDE DETECTOR: Smoke detectors are present in the home and meet all local building codes. No carbon monoxide detector was noted; however, a carbon monxide detector is NOT required in the state of Florida and/or Collier County.

BORROWER VERSUS OWNER: This is a refinance transaction and the borrower is the owner.

COMMENTS ON THE SUBJECT'S UNIT NUMBER: The subject is noted to have both a unit number of 1 and 96.

COMMENTS ON THE CURRENT LEASE: The property was leased 03/01/2024 to 03/01/2025 at a rate of $3,000 per month.
WATER HEATER: The water heater meets all local safety regulations.

COMMENTS ON THE SUBJECT'S BUILDING: The subject's building does not have any evidence of any significant deferred maintenance and/or unsafe conditions. The building is habitable and there are no health and/or safety issues noted.

SUBJECT'S GROSS LIVING AREA: The assessor's office notes that the subject has 1697 square feet; however, during the inspection the appraiser noted that the unit is 1695 square feet. Small discrepancies are typical for the market area.

ANSI Declaration: The ANSI Standards were used in measuring the home. A two-story attached single-family condominium with 1697 above-grade finished square feet and 0 above-grade unfinished square feet. The property includes a 132 sq. ft. patio and a one -car garage. NOTE: The ANSI standard should not be used if the architectural design is an apartment style or multifamily building. When measuring a condominium or co-op that is part of an apartment-style or multifamily building, Fannie Maes policy of using interior perimeter measurements for the subject property should be applied.

COMMENTS ON THE SUBJECT'S LOCATION: The subject property is in a close proximity to Interstate 75, the Naples Airport (not in the flight path), over-head power lines, commercial property, and a school. These items have no adverse affects on the marketability of the subject property. All of the homes included within this report are equally unaffected by the items noted above, unless otherwise noted.

HIGHEST AND BEST USE (HABU): The subject as improved is a legally permissible use based on its current zoning. The lot size, shape, physical condition and land to building ratio allow the present structure and indicate utilization of the improvements. Based upon the current market conditions, the present use as a condominium residence is its financially feasible and maximally productive use. The highest and best use is its present use.

SUBJECT'S ESTIMATED VALUE VERSUS PREDOMINATE VALUE: The subject's estimated value is above the predominate value in the market area due to the most recent sales and the subject's overall gross living area. The best sales as of the effective date of this appraisal were included in the comparison grids and used to derive the subject's current estimated value.

Included within the appraisal report is an aerial image of the subject and a CMA single line item report (please refer to the top of Page 3 or the 1004MC). The homes that were provided on the CMA form were the sales and listings that were considered in the appraiser's analysis.

PLEASE NOTE THAT 2023 IS THE MOST RECENT TAX YEAR THAT IS NOTED BY REALIST.COM.

A reasonable estimate of 'Exposure Time' for a property of similar value and with similar features to the Subject would be in the range of 1-90 days.

Borrower: Kevin Wilson		File No.: 16781304.1
Property Address: 3299 Megan Ln		Case No.: 0438733974
City: Naples	State: FL	Zip: 34109

THE SUBJECT'S COMPLEX HAS A REMAINING ECONOMIC LIFE OF 65 YEARS.

NO PROPERTY LITIGATIONS WERE NOTED AT THE TIME OF THE INSPECTION.

NO PERSONAL PROPERTY WAS INCLUDED IN THE VALUATION OF THE SUBJECT PROPERTY.

The Subject's Condominium project, associated grounds, and building do not appear to have any features characteristic of a hotel or motel. However, the Lender is strongly encouraged to review all of the Condo project documents in order to verify the Subjects eligibility for secondary market financing.

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three year period immediately preceding acceptance of this assignment.

Having personally inspected the Subject property, I certify to the best of my knowledge that the Subject property and/or neighborhood sustained NO significant damage due to the recent disaster, including damage from either hurricanes or flood. The Subject property appears to be in acceptable condition. Property is free from damage and the disaster had no effect on value or marketability. Please refer to the photo addendum for additional information of the above mentioned items. The home has no health or safety issues and is habitable.

The appraiser adhered to their State Licensing Requirements, as it relates to this specific assignment.

The appraiser comparable search criteria consisted of properties that are between 1250 and 1850 square feet, and which sold within the past twelve months, and are located within a one mile radius of the subject property. My comparable search did not include any sales price or value parameters. The search resulted in a total of five potential comparable properties to consider, of which three closed sales were included and gridded in this appraisal report.

PHOTOS: I acknowledge the photo requirements, and attest that I provided original photos for the following:
-Subject Front, Rear, both sides and Street
-Physical Deterioration (if warranted / reported / observed)
-Recent Updates, Remodeling, Renovation (if warranted / reported / observed) -All Characteristics Affecting Value(if warranted / reported / observed)
-Kitchen and all Bathrooms
-Main Living Areas
-Each of the gridded comps
-Aerial photo

SKETCH: I attest that I reviewed my sketch and validated that:

-The bedrooms and baths listed are consistent with what is reported in the appraisal report -All patios and porches are included and labeled to be either open, covered or enclosed; and include their dimensions

RECONCILIATION OF THE COMPARABLE SALES: The best sales comparables as of the effective date of this report were included. The appraisers comparable search parameters began with an MLS search for single family condominiums sold within the prior three months, located within half of a mile from the subject property, and containing 1250 to 1850 square feet of living area. Due to a lack of recent sale activity, the comparable search parameters were extended to one mile and twelve months from the effective date of this appraisal. The comparable sales used in the appraisal were the most recent and overall similar sales within one mile of the subject property. Stressed sales (Foreclosures, REO's, Short Sales) are present in the area and have been for more than twelve months. These sales do not appear to be affecting the current marketability of standard sales throughout the neighborhood. Please refer to the 1004MC attached to this report for more information regarding the current market in the subject's neighborhood. Comparables 1 through 3 are all closed sales. Comparables 4 and 5 (both currently listed) were provided to illustrate competition within close proximity to the subject and were adjusted for anticipated sale/list price ratio. While consideration was given to each comparable, the closed sales were given greatest weight. The closed sales were given the following weight in determining the subject's estimated value: Comparable 1- 1%(similar design to the subject property); Comparable 2- 1%(similar quality of construction); Comparable 3- 98%(similar design); and Comparables 4 and 5 were included to support the subject's estimated value that was derived from the closed sales.

COMPARABLE 1: The settlement date was 08/05/2024. This unit is known as unit 4 or unit 68. This home was included in the report due to the similar design to the subject property.

COMPARABLE 2: The settlement date was 11/01/2024. The condition (recent remodel with a 'like new' state) is superior to the subject property. The design and bathroom count are both inferior. This home was included in the report due to the similar quality of construction to the subject.

COMPARABLE 3: The settlement date was 12/27/2024. This unit is known as unit 1 or unit 39. This home was included in the report due to the similar design to the subject property.

COMPARABLE 4: This is a pending sale. This comparable was adjusted for purchase negotiations at 7% and then rounded to the nearest $500. Purchase negotiations were determined based on the sales price as a percentage of the listing price over the last twelve months per the 1004MC attached to this report. This unit is known as unit 5 or unit 71. This listing was used in the comparison grid due to the similar design to the subject property.

COMPARABLE 5: This is an active listing. This comparable was adjusted for purchase negotiations at 7% and then rounded to the nearest $500. Purchase negotiations were determined based on the sales price as a percentage of the listing price over the last twelve months per the 1004MC attached to this report. The condition (in need of some TLC), bedroom count, number of garage stalls, and gross living area are all inferior to the subject property. This listing was used in the comparison grid due to the similar design to the subject property. Please note that it was necessary to exceed the typcial net adjustment of no more than 15% and the typcial gross adjustment of no more than 25% due to the inferior gross living area to the subject.

SALES COMPARISON APPROACH: The appraiser has researched the subject's immediate market area in the form of market area sales transactions and market listings. All of the comparables chosen are located in the same market area as the subject. The comparables chosen were the best comparables at the time of inspection. The comparables were adjusted as follows:

AGE: No adjustments were deemed necessary.

CONCESSIONS: Sales concessions are typical for the market area and no adjustments were deemed necessary in the comparison grid. Often times, concessions come into play late in the escrow process and have no effect on the purchase price that was originally agreed upon. Please note that the local MLS does note concessions; however, the majority of the time no remarks are made for what the concession is for.

CONDITION: Please refer to the Universal Appraisal Dataset Definitions page in the "Ending Addendum" section of this report for a breakdown of the condition ratings. Please note that the condition of the comparables was noted from an exterior inspection from the street, MLS listing notes, and MLS listing photos. The adjustment is the best estimated market reaction and paired sales analysis to a limited degree of Comparables 2, 3, and 5. Adjustments from C3 to C2 were made at $23,500. Adjustments from C3 to C4 were made at $27,500.

DESIGN: Adjustments from a townhouse style design to a garden design were made at $25,000. The adjustment is the best estimated market reaction and paired sales analysis to a limited degree of Comparables 2 and 3.

FLOOR LOCATION: No adjustments were deemed necessary.
GARAGE/PARKING STALLS: Differences in garage stalls were adjusted at $20,000 per stall of difference. The adjustment is the best estimated market reaction and paired sales analysis to a limited degree of Comparables 3 and 5.

LOCATION: No adjustments were deemed necessary.

POOL: No adjustments were deemed necessary.

QUALITY OF CONSTRUCTION: No adjustments were deemed necessary.

ROOM COUNT: Room adjustments made at $15,000 for bedrooms and full bathrooms. Half bathrooms were adjusted at $7,500. Please note that the bedroom and bathroom count for all of the comparables was noted directly from the homes' MLS listing. The adjustment is the best estimated market reaction and paired sales analysis to a limited degree of Comparables 2 and 3.

SIZE: Adjustments made at $65.00 per square foot of difference for differences greater than 300 square feet and then rounded to the nearest $500. Adjustments were derived from the market extraction method from recently closed sales from within the market area.

VIEW: No adjustments were deemed necessary.

OTHER ADJUSTMENTS: All other improvement adjustments are based on Marshall and Swift's Cost Book and/or Market Analysis. All sales verified through public record, Realist, Fidelity National Title, and/or MLS as per USPAP requirements.

SCOPE OF WORK: This report form is designed to present the information needed to determine the market rent for a single-family property. It calls for information on the physical structure, location, and lease terms.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market rent statement of assumptions and limiting conditions, and certifications.

The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market rent, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) obtain and review adequate and reliable information for the subject property, and the subject project (where applicable) including, but not limited to, public and/or private data records, and information as described by the appraiser in the appraisal report, (2) research, verify, and analyze adequate and reliable data from public and/or private sources for the subject market area including data for each comparable property reported, and, (3) report his or her analysis, opinions, and conclusions in this appraisal report.

Definition of Market Rent: The most probable rent which a property should bring in a competitive and open market reflecting the conditions and restrictions of a specified lease agreement, including the rental adjustment and revaluation, permitted uses, use restrictions, expense obligations, term, concessions, renewal and purchase options, and tenant improvements (TIs). (Source: The Dictionary of Real Estate Appraisal, 6th Edition, 2015)

RECONCILIATION OF THE COMPARABLE RENTALS: The best rental comparables as of the effective date of this report were included. The appraisers comparable search parameters began with an MLS search for single family attached homes rented within the prior three months, located within half of a mile from the subject property, and containing 1400 to 1850 square feet of living area. Due to a lack of recent rental activity, the rental search parameters were extended to one mile (1.0 mile) and twelve months from the effective date of this appraisal. The comparable rentals used in the appraisal were the most recent and overall similar rentals within one mile (1.0 mile) of the subject property. All of the homes included within the rental comparison grid would appeal to the same potential renter and no location adjustments were deemed necessary, unless otherwise noted. These are the most similar and current rental properties for which data could be obtained, which are felt to serve a s an indication of obtainable market rent for the subject. Rental data was obtained using the local MLS and Rentometer.com. Property characteristics verified by Realist.com. The three rentals were given the following weight in determining the subject's estimated rent: Rental 1-49% (similar design to the subject); Rental 2-49% (similar design); Rental 3-2% (similar design); and then rounded to the nearest $5.

RENTAL 1: This rental was used in the grid due to the similar design to the subject.

RENTAL 2: This rental was used in the grid due to the similar design to the subject.

RENTAL 3: The gross living area is inferior to the subject property. This rental was used in the grid due to the similar design to the subject.

RENTAL COMPARISON APPROACH: The appraiser has researched the subject's immediate market area in the form of market area rental transactions and market listings. All of the comparables chosen are located in the same market area as the subject. The comparables chosen were the best comparables at the time of inspection. The comparables were adjusted as follows:

AGE: No adjustments were necessary.

CONDITION: No adjustments were necessary.

DESIGN: No adjustments were deemed necessary.

Borrower: Kevin Wilson		File No.: 16781304.1
Property Address: 3299 Megan Ln		Case No.: 0438733974
City: Naples	State: FL	Zip: 34109
Lender: Nationstar Mortgage LLC d/b/a Mr. Cooper		

GARAGE: No adjustments were necessary.

POOL: No adjustments were necessary.

QUALITY OF CONSTRUCTION: No adjustments were necessary.

ROOM COUNT: No adjustments were necessary.

SIZE: Adjustments made at $0.20 per square foot of difference for differences greater than 100 square feet and then rounded to the nearest $5. The adjustment is the best estimated market reaction and paired rental analysis to a limited degree of Rentals 1, 2, and 3.

OTHER ADJUSTMENTS: All other improvement adjustments are based on Marshall and Swift's Cost Book and/or Market Analysis. All sales verified through public record, Realist, Fidelity National Title, and/or MLS as per USPAP requirements.

Market Conditions Addendum to the Appraisal Report

0438733974
File No. 16781304.1

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 3299 Megan Ln City Naples State FL Zip Code 34109

Borrower Kevin Wilson

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.).

There have been 4 comparable sales within the neighborhood within the past 12 months. Several of these sales listed a buyer's assistance concession within their respective listings. These concessions ranged from 2% to 6% of sales price. The amount of seller concessions and the percentage of these concessions to list price has been relatively stable throughout the past 12 months and has not been increasing.

Are foreclosure sales (REO sales) a factor in the market? [ ] Yes [X] No If yes, explain (including the trends in listings and sales of foreclosed properties).

Although REO, HUD, and Short Sale listings and sales are present within the market area, they do not appear to be affecting the value of arms length transactions within the neighborhood. REO sales are less than 3% of the total sales within the market area. These types of sales and listings have been present within the neighborhood for more than 12 months.

Cite data sources for above information. The information provided above was obtained from local MLS. The statistics provided are based on comparable sales throughout the market area.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

It is the appraiser's opinion that the above market statistics point to a stable market. Overall there are currently 4 listings within the subject's market area. The statistics included within this report were obtained through the sales and listings within the same neighborhood of the subject and are similar style homes within the same market area and would compete for similar buyer types.

CONDO / CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project , complete the following: Project Name: Cypress Glen Village

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend
Total # of Comparable Sales (Settled)	2	3	2	[ ] Increasing [X] Stable [ ] Declining
Absorption Rate (Total Sales/Months)	0.33	1.00	0.67	[ ] Increasing [X] Stable [ ] Declining
Total # of Active Comparable Listings	4	6	6	[ ] Declining [X] Stable [ ] Increasing
Months of Unit Supply (Total Listings/Ab. Rate)	12.10	6.00	9.00	[ ] Declining [X] Stable [ ] Increasing

Are foreclosure sales (REO sales) a factor in the project? [ ] Yes [X] No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Foreclosures are not currently a factor in the project.

Summarize the above trends and address the impact on the subject unit and project. It is the appraiser's opinion that the above market statistics point to a stable market. The statistics included within this section were obtained through the sales and listings within the same complex as the subject property.

Value As Of	12/30/2024		

(1) RealAVM™ is a CoreLogic® derived value and should not be used in lieu of an appraisal.

(2) The Confidence Score is a measure of the extent to which sales data, property information, and comparable sales support the property valuation analysis process. The confidence score range is 50 - 100. Clear and consistent quality and quantity of data drive higher confidence scores while lower confidence scores indicate diversity in data, lower quality and quantity of data, and/or limited similarity of the subject property to comparable sales.

(3) The FSD denotes confidence in an AVM estimate and uses a consistent scale and meaning to generate a standardized confidence metric. The FSD is a statistic that measures the likely range or dispersion an AVM estimate will fall within, based on the consistency of the information available to the AVM at the time of estimation. The FSD can be used to create confidence that the true value has a statistical degree of certainty.

Comments on market data, including the range of rents for single family properties, an estimate of vacancy for single family rental properties, the general trend of rents and vacancy, and support for the above adjustments. (Rent concessions should be adjusted to the market, not to the subject property.)

The best rental comparables as of the effective date of this report were included. The appraiser's comparable search parameters began with an MLS search for attached single family units rented within the prior three months, located within half of a mile from the subject property, and containing 1400 to 1850 square feet of living area. Due to a lack of recent rental activity, the rental search parameters were extended to one mile (1.0 mile) and twelve months from the effective date of this appraisal. The comparable rentals used in the appraisal were the most recent and overall similar rentals within one mile (1.0 mile) of the subject property. All of the homes included within the rental comparison grid would appeal to the same potential renter and no location adjustments were deemed necessary, unless otherwise noted. These are the most similar and current rental properties for which data could be obtained, which are felt to serve a s an indication of obtainable market rent for the subject. Rental data was obtained using the local MLS and Rentometer.com. Property characteristics verified by Realist.com.

RECONCILIATION

Final Reconciliation of Market Rent: Rentals 1 through 3 are all closed rentals. The comparable rentals used in the appraisal were the most recent and overall similar rentals within one mile (1.0 mile) of the subject property. These are the most similar and current rental properties for which data could be obtained, which are felt to serve a s an indication of obtainable market rent for the subject. The three rentals were given the following weight in determining the subject's estimated rent: Rental 1-49% (similar design to the subject); Rental 2-49% (similar design); Rental 3-2% (similar design); and then rounded to the nearest $5.

I (WE) ESTIMATE THE MONTHLY MARKET RENT OF THE SUBJECT AS OF 01/13/2025 TO BE $ 2,700

General Instructions: This form is to be prepared jointly by the loan applicant, the appraiser, and the lender's underwriter. The applicant must complete the following schedule indicating each unit's rental status, lease expiration date, current rent, market rent, and the responsibility for utility expenses. Rental figures must be based on the rent for an "unfurnished" unit.

	Currently Rented		Expiration Date	Current Rent Per Month	Market Rent Per Month
Unit No. 1	Yes X	No	03/01/2025	$ 3,000	$ 2,700
Unit No. 2	Yes	No		$	$
Unit No. 3	Yes	No		$	$
Unit No. 4	Yes	No		$	$
Total				$ 3,000	$ 2,700

Utility Expense	Paid By Owner	Paid By Tenant
Electricity		X
Gas		
Fuel Oil		
Fuel (Other)		
Water/Sewer		X
Trash Removal	X	

The applicant should complete all of the income and expense projections and for existing properties provide actual year-end operating statements for the past two years (for new properties the applicant's projected income and expenses must be provided). This Operating Income Statement and previous operating statements the applicant provides must then be sent to the appraiser for review, comment, and/or adjustments next to the applicant's figures (e.g., Applicant/Appraiser 288/310). If the appraiser is retained to complete the form instead of the applicant, the lender must provide to the appraiser the aforementioned operating statements, mortgage insurance premium, HOA dues, leasehold payments, subordinate financing, and/or any other relevant information as to the income and expenses of the subject property received from the applicant to substantiate the projections. The underwriter should carefully review the applicant's/appraiser's projections and the appraiser's comments concerning those projections. The underwriter should make any final adjustments that are necessary to more accurately reflect any income or expense items that appear unreasonable for the market. (Real estate taxes and insurance on these types of properties are included in PITI and not calculated as an annual expense item.) Income should be based on current rents, but should not exceed market rents. When there are no current rents because the property is proposed, new, or currently vacant, market rents should be used.

Replacement Reserve Schedule

Adequate replacement reserves must be calculate regardless of whether actual reserves are provided for on the owner's operating statements or are customary in the local market. This represents the total average yearly reserves. Generally, all equipment and components that have a remaining life of more than one year-such as refrigerators, stoves, clothes washers/dryers, trash compactors, furnaces, roofs, and carpeting, etc.-should be expensed on a replacement cost basis.

$ 2,324.00 (Monthly Operating Income) - $ 0.00 (Monthly Housing Expenses) =$ 2,324.00 (Net Cash Flow)

(Note: Monthly Housing Expense includes principal and interest on the mortgage, hazard insurance premiums, real estate taxes, mortgage insurance premiums, HOA dues, leasehold payments, and subordinate financing payments.)

Underwriter's instructions for 2-4 Family Owner-Occupied Properties

- If Monthly Operating Income is a positive number, enter as "Net Rental Income" in the "Gross Monthly Income" section of Freddie Mac Form 65/Fannie Mae Form 1003. If Monthly Operating Income is a negative number, it must be included as a liability for qualification purposes.
- The borrower's monthly housing expense-to-income ratio must be calculated by comparing the total Monthly Housing Expense for the subject property to the borrower's stable monthly income.

Underwriter's instructions for 1-4 Family Investment Properties

- If Net Cash Flow is a positive number, enter as "Net Rental Income" in the "Gross Monthly Income" section of Freddie Mac Form 65/Fannie Mae Form 1003. If Net Cash Flow is a negative number, it must be included as a liability for qualification purposes.
- The borrower's monthly housing expense-to-income ratio must be calculated by comparing the total monthly housing expense for the borrower's primary residence to the borrower's stable monthly income.

Appraiser's Comments (including sources for data and rationale for the projections)

Actual and previous years expenses were not provided for review. Expenses were estimated using the apartment building operating expense guidelines. Monthly housing expenses were not provided.

Lender	Nationstar Mortgage LLC d/b/a Mr. Cooper						

FIRREA CERTIFICATION STATEMENT: *The appraiser certifies and agrees that this appraisal report was prepared in accordance with the requirements of Title XI of the Financial Institutions, Reform, Recovery, and Enforcement Act (FIRREA) of 1989, as amended (12 U.S.C. 3331 et seq.), and any applicable implementing regulations in effect at the time the appraiser signs the appraisal certification.*

AIR COMPLIANCE STATEMENT: *No employee, director, officer, or agent of the lender, or any other third party acting as joint venture partner, independent contractor, appraisal management company, or partner on behalf of the lender, shall influence or attempt to influence the development, reporting, result, or review of an appraisal through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery, or in any other manner. I have not been contacted by anyone other than the intended user (lender/client as identified on the first page of the report), borrower, or designated contact to make an appointment to enter the property. I agree to immediately report any unauthorized contacts either personally by phone or electronically.*

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, unless noted in differently in the client requirements section below or in the Loan Purpose section above.

INTENDED USER: The Client listed above and any others that may be identified by the client that could have a need to rely on the information contained in the appraisal report.

COMPETENCY PROVISION: The appraiser has the appropriate knowledge and experience to complete this assignment competently. Appraiser qualifications are maintained in files and can be provided upon request.

SELF CONTAINMENT: This appraisal report is intended to be a complete summary report containing the information necessary to enable the reader to understand the appraiser's opinion. Any third party studies referred to, such as pest, hazardous materials, or structural reports have been verified by the appraiser to the extent of the assumptions and conclusions used.

PERSONAL PROPERTY: Any personal property involved in the transaction has been excluded from the valuation of the real property. Should a transaction, which includes personal property of sufficient value to affect the market value of the real property, be evident, a separate assessment of the personal property, fixtures, or intangible items will be identified and included in the report as a separate valuation.

DIGITAL SIGNATURE: This appraisal is digitally signed. This digital signature requires a security password known only by the appraiser. No changes can be made to any portion of this appraisal report once it has been digitally signed. The digital signature used in this report is an accurate representation of the appraiser's signature.

LIMITING CONDITIONS: The appraiser is not a licensed building contractor or a professional building inspector. I am not qualified to survey or analyze physical items that are not readily visible. If any of the parties in this transaction have questions or concerns regarding any mechanical or structural physical problems, conditions, infestation, contamination, or other issues regarding the subject property, an expert in that field or specialty should be consulted.

******TO THE APPRAISER'S KNOWLEDGE THERE IS NO MEDIATION, PRE-LITIGATION, OR PENDING LITIGATION AT THE TIME OF THIS REPORT.******

COMMENTS ON THE SUBJECT PROPERTY: The subject property is a single family, attached, two-level condominium. The floor plan is typical and conforms to the neighborhood. There are smoke detectors adequately placed around the home and around the bedroom areas. All of the utilities were on and in working order during the inspection. The kitchen sink was in working order. The subject property is habitable and there are no health or safety issues. Please see the sketch and photo addendums for more information.

SMOKE DETECTOR AND CARBON MONOXIDE DETECTOR: Smoke detectors are present in the home and meet all local building codes. No carbon monoxide detector was noted; however, a carbon monxide detector is NOT required in the state of Florida and/or Collier County.

BORROWER VERSUS OWNER: This is a refinance transaction and the borrower is the owner.

COMMENTS ON THE SUBJECT'S UNIT NUMBER: The subject is noted to have both a unit number of 1 and 96.

COMMENTS ON THE CURRENT LEASE: The property was leased 03/01/2024 to 03/01/2025 at a rate of $3,000 per month.

File No. 16781304.1

Borrower/Client	Kevin Wilson						
Property Address	3299 Megan Ln						
City	Naples	County	Collier	State	FL	Zip Code	34109
Lender	Nationstar Mortgage LLC d/b/a Mr. Cooper						

WATER HEATER: The water heater meets all local safety regulations.

COMMENTS ON THE SUBJECT'S BUILDING: The subject's building does not have any evidence of any significant deferred maintenance and/or unsafe conditions. The building is habitable and there are no health and/or safety issues noted.

SUBJECT'S GROSS LIVING AREA: The assessor's office notes that the subject has 1697 square feet; however, during the inspection the appraiser noted that the unit is 1695 square feet. Small discrepancies are typical for the market area.

ANSI Declaration: The ANSI Standards were used in measuring the home. A **two-story** attached single-family condominium with **1697** above-grade finished square feet and **0** above-grade unfinished square feet. The property includes a **132** sq. ft. patio and a **one**-car garage. NOTE: The ANSI standard should not be used if the architectural design is an apartment style or multifamily building. When measuring a condominium or co-op that is part of an apartment-style or multifamily building, Fannie Mae's policy of using interior perimeter measurements for the subject property should be applied.

COMMENTS ON THE SUBJECT'S LOCATION: The subject property is in a close proximity to Interstate 75, the Naples Airport (not in the flight path), over-head power lines, commercial property, and a school. These items have no adverse affects on the marketability of the subject property. All of the homes included within this report are equally unaffected by the items noted above, unless otherwise noted.

HIGHEST AND BEST USE (HABU): The subject as improved is a legally permissible use based on its current zoning. The lot size, shape, physical condition and land to building ratio allow the present structure and indicate utilization of the improvements. Based upon the current market conditions, the present use as a condominium residence is its financially feasible and maximally productive use. The highest and best use is its present use.

SUBJECT'S ESTIMATED VALUE VERSUS PREDOMINATE VALUE: The subject's estimated value is above the predominate value in the market area due to the most recent sales and the subject's overall gross living area. The best sales as of the effective date of this appraisal were included in the comparison grids and used to derive the subject's current estimated value.

Included within the appraisal report is an aerial image of the subject and a CMA single line item report (please refer to the top of Page 3 or the 1004MC). The homes that were provided on the CMA form were the sales and listings that were considered in the appraiser's analysis.

PLEASE NOTE THAT 2023 IS THE MOST RECENT TAX YEAR THAT IS NOTED BY REALIST.COM.

A reasonable estimate of 'Exposure Time' for a property of similar value and with similar features to the Subject would be in the range of 1-90 days.

THE SUBJECT'S COMPLEX HAS A REMAINING ECONOMIC LIFE OF 65 YEARS.

NO PROPERTY LITIGATIONS WERE NOTED AT THE TIME OF THE INSPECTION.

NO PERSONAL PROPERTY WAS INCLUDED IN THE VALUATION OF THE SUBJECT PROPERTY.

The Subject's Condominium project, associated grounds, and building do not appear to have any features characteristic of a hotel or motel. However, the Lender is strongly encouraged to review all of the Condo project documents in order to verify the Subject's eligibility for secondary market financing.

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three year period immediately preceding acceptance of this assignment.

Having personally inspected the Subject property, I certify to the best of my knowledge that the Subject property and/or neighborhood sustained NO significant damage due to the recent disaster, including damage from either hurricanes or flood. The Subject property appears to be in acceptable condition. Property is free from damage and the disaster had no effect on value or marketability. Please refer to the photo addendum for additional information of the above mentioned items. The home has no health or safety issues and is habitable.

The appraiser adhered to their State Licensing Requirements, as it relates to this specific assignment.

The appraiser comparable search criteria consisted of properties that are between 1250 and 1850 square feet, and which sold within the past twelve months, and are located within a one mile radius of the subject property. My comparable search did not include any sales price or value parameters. The search resulted in a total of five potential comparable properties to consider, of which three closed sales were included and gridded in this appraisal report.

PHOTO'S: I acknowledge the photo requirements, and attest that I provided original photos for the following:

-Subject Front, Rear, both sides and Street
-Physical Deterioration (if warranted / reported / observed)
-Recent Updates, Remodeling, Renovation (if warranted / reported / observed)
-All Characteristics Affecting Value(if warranted / reported / observed)
-Kitchen and all Bathrooms
-Main Living Areas

RECONCILIATION OF THE COMPARABLE SALES: The best sales comparables as of the effective date of this report were included. The appraiser's comparable search parameters began with an MLS search for single family condominiums sold within the prior three months, located within half of a mile from the subject property, and containing 1250 to 1850 square feet of living area. Due to a lack of recent sale activity, the comparable search parameters were extended to one mile and twelve months from the effective date of this appraisal. The comparable sales used in the appraisal were the most recent and overall similar sales within one mile of the subject property. Stressed sales (Foreclosures, REO's, Short Sales) are present in the area and have been for more than twelve months. These sales do not appear to be affecting the current marketability of standard sales throughout the neighborhood. Please refer to the 1004MC attached to this report for more information regarding the current market in the subject's neighborhood. Comparables 1 through 3 are all closed sales. Comparables 4 and 5 (both currently listed) were provided to illustrate competition within close proximity to the subject and were adjusted for anticipated sale/list price ratio. While consideration was given to each comparable, the closed sales were given greatest weight. The closed sales were given the following weight in determining the subject's estimated value: Comparable 1- 1%(similar design to the subject property); Comparable 2- 1%(similar quality of construction); Comparable 3- 98%(similar design); and Comparables 4 and 5 were included to support the subject's estimated value that was derived from the closed sales.

COMPARABLE 1: The settlement date was 08/05/2024. This unit is known as unit 4 or unit 68. This home was included in the report due to the similar design to the subject property.

COMPARABLE 2: The settlement date was 11/01/2024. The condition (recent remodel with a 'like new' state) is superior to the subject property. The design and bathroom count are both inferior. This home was included in the report due to the similar quality of construction to the subject.

COMPARABLE 3: The settlement date was 12/27/2024. This unit is known as unit 1 or unit 39. This home was included in the report due to the similar design to the subject property.

COMPARABLE 4: This is a pending sale. This comparable was adjusted for purchase negotiations at 7% and then rounded to the nearest $500. Purchase negotiations were determined based on the sales price as a percentage of the listing price over the last twelve months per the 1004MC attached to this report. This unit is known as unit 5 or unit 71. This listing was used in the comparison grid due to the similar design to the subject property.

COMPARABLE 5: This is an active listing. This comparable was adjusted for purchase negotiations at 7% and then rounded to the nearest $500. Purchase negotiations were determined based on the sales price as a percentage of the listing price over the last twelve months per the 1004MC attached to this report. The condition (in need of some TLC), bedroom count, number of garage stalls, and gross living area are all inferior to the subject property. This listing was used in the comparison grid due to the similar design to the subject property. Please note that it was necessary to exceed the typcial net adjustment of no more than 15% and the typcial gross adjustment of no more than 25% due to the inferior gross living area to the subject.

SALES COMPARISON APPROACH: The appraiser has researched the subject's immediate market area in the form of market area sales transactions and market listings. All of the comparables chosen are located in the same market area as the subject. The comparables chosen were the best comparables at the time of inspection. The comparables were adjusted as follows:

AGE: No adjustments were deemed necessary.

CONCESSIONS: Sales concessions are typical for the market area and no adjustments were deemed necessary in the comparison grid. Often times, concessions come into play late in the escrow process and have no effect on the purchase price that was originally agreed upon. Please note that the local MLS does note concessions; however, the majority of the time no remarks are made for what the concession is for.

CONDITION: Please refer to the Universal Appraisal Dataset Definitions page in the "Ending Addendum" section of this report for a breakdown of the condition ratings. Please note that the condition of the comparables was noted from an exterior inspection from the street, MLS listing notes, and MLS listing photos. The adjustment is the best estimated market reaction and paired sales analysis to a limited degree of Comparables 2, 3, and 5. Adjustments from C3 to C2 were made at $23,500. Adjustments from C3 to C4 were made at $27,500.

DESIGN: Adjustments from a townhouse style design to a garden design were made at $25,000. The adjustment is the best estimated market reaction and paired sales analysis to a limited degree of Comparables 2 and 3.

FLOOR LOCATION: No adjustments were deemed necessary.

GARAGE/PARKING STALLS: Differences in garage stalls were adjusted at $20,000 per stall of difference. The adjustment is the best estimated market reaction and paired sales analysis to a limited degree of Comparables 3 and 5.

LOCATION: No adjustments were deemed necessary.

POOL: No adjustments were deemed necessary.

QUALITY OF CONSTRUCTION: No adjustments were deemed necessary.

ROOM COUNT: Room adjustments made at $15,000 for bedrooms and full bathrooms. Half bathrooms were adjusted at $7,500. Please note that the bedroom and bathroom count for all of the comparables was noted directly from the homes' MLS listing. The adjustment is the best estimated market reaction and paired sales analysis to a limited degree of Comparables 2 and 3.

SIZE: Adjustments made at $65.00 per square foot of difference for differences greater than 300 square feet and then rounded to the nearest $500. Adjustments were derived from the market extraction method from recently closed sales from within the market area.

VIEW: No adjustments were deemed necessary.

OTHER ADJUSTMENTS: All other improvement adjustments are based on Marshall and Swift's Cost Book and/or Market Analysis. All sales verified through public record, Realist, Fidelity National Title, and/or MLS as per USPAP requirements.

SCOPE OF WORK: This report form is designed to present the information needed to determine the market rent for a single-family property. It calls for information on the physical structure, location, and lease terms.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market rent statement of assumptions and limiting conditions, and certifications.

The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market rent, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) obtain and review adequate and reliable information for the subject property, and the subject project (where applicable) including, but not limited to, public and/or private data records, and information as described by the appraiser in the appraisal report, (2) research, verify, and analyze adequate and reliable data from public and/or private sources for the subject market area including data for each comparable property reported, and, (3) report his or her analysis, opinions, and conclusions in this appraisal report.

Definition of Market Rent: The most probable rent which a property should bring in a competitive and open market reflecting the conditions and restrictions of a specified lease agreement, including the rental adjustment and revaluation, permitted uses, use restrictions, expense obligations, term, concessions, renewal and purchase options, and tenant improvements (TIs). (Source: The Dictionary of Real Estate Appraisal, 6th Edition, 2015)

RECONCILIATION OF THE COMPARABLE RENTALS: The best rental comparables as of the effective date of this report were included. The appraiser's comparable search parameters began with an MLS search for single family attached homes rented within the prior three months, located within half of a mile from the subject property, and containing 1400 to 1850 square feet of living area. Due to a lack of recent rental activity, the rental search parameters were extended to one mile (1.0 mile) and twelve months from the effective date of this appraisal. The comparable rentals used in the appraisal were the most recent and overall similar rentals within one mile (1.0 mile) of the subject property. All of the homes included within the rental comparison grid would appeal to the same potential renter and no location adjustments were deemed necessary, unless otherwise noted. These are the most similar and current rental properties for which data could be obtained, which are felt to serve as an indication of obtainable market rent for the subject. Rental data was obtained using the local MLS and Rentometer.com. Property characteristics verified by Realist.com. The three rentals were given the following weight in determining the subject's estimated rent: Rental 1-49% (similar design to the subject); Rental 2-49% (similar design); Rental 3-2% (similar design); and then rounded to the nearest $5.

RENTAL 1: This rental was used in the grid due to the similar design to the subject.

RENTAL 2: This rental was used in the grid due to the similar design to the subject.

RENTAL 3: The gross living area is inferior to the subject property. This rental was used in the grid due to the similar design to the subject.

RENTAL COMPARISON APPROACH: The appraiser has researched the subject's immediate market area in the form of market area rental transactions and market listings. All of the comparables chosen are located in the same market area as the subject. The comparables chosen were the best comparables at the time of inspection. The comparables were adjusted as follows:

AGE: No adjustments were necessary.

CONDITION: No adjustments were necessary.

DESIGN: No adjustments were deemed necessary.

GARAGE: No adjustments were necessary.

POOL: No adjustments were necessary.

QUALITY OF CONSTRUCTION: No adjustments were necessary.

ROOM COUNT: No adjustments were necessary.

SIZE: Adjustments made at $0.20 per square foot of difference for differences greater than 100 square feet and then rounded to the nearest $5. The adjustment is the best estimated market reaction and paired rental analysis to a limited degree of Rentals 1, 2, and 3.

OTHER ADJUSTMENTS: All other improvement adjustments are based on Marshall and Swift's Cost Book and/or Market Analysis. All sales verified through public record, Realist, Fidelity National Title, and/or MLS as per USPAP requirements.
