MARKET DATA ANALYSIS

The undersigned has recited three recent sales of properties most similar and proximate to the subject and has to be considered these in the market analysis. The description includes a dollar adjustment, reflecting market reaction to those items of significant variation between the subject and comparable properties. If a significant item in the comparable property is superior to, or more favorable than subject property, a minus (-) adjustment is made, thus reducing the indicated value of the subject, if a significant item in the comparable is inferior to or less favorable than the subject property, a plus (+) adjustment is made, thus increasing the indicated value of the subject.

COMMENTS

Comments on Market Data Listings included per lending guidelines. Currently- the appraiser's research revealed limited active/contingent/pending listings of similar properties in the subject's market area. Sales to list ratio adjustments based primarily on CPAR MLS data. Comp 4: Located in an area with more nearby manufactured housing, which is less desirable. Property fronts a busy roadway, which is not as desirable. Access inferior- driveway needed to property. Lot does not appear subdividable. Shed on site appears to contribute no significant value. Property appears to be listed above current market values- willl be given secondary consideration. Comp 5: Located in an area with more nearby manufactured housing, which is less desirable. Property has an workshop w/garage on site that has been adjusted out. Priced high-- secondary consideration.

Neighborhood Comments
The subject neighborhood is located in an established area of the Callaway/Parker/Springfield area. Residential improvements vary substantially in age/design/condition/quality/size. Many residences have undergone renovations/updating- particularly after Hurricane Michael (Oct '18). Income levels are generally moderate to middle. *** See Additional Comments ***

Site Comments
Located on the corner of Hill Drive and Lois Street- primarily residential views. The subject lot appears to be subdividable per Callaway zoning information, which is a desirable feature. A survey was not provided. Easements, site dimensions, site area, and flood zone status should be verified by a current survey, if deemed necessary. The appraiser's inspection revealed no environmental hazards. An environmental assessment should be obtained, if deemed necessary. *** See Additional Comments ***

Comments on Sales Comparison
See additional comparables on next page. The appraiser's research revealed a limited supply of recent sales of similar subdividable residential lots in this market area. Therefore, the appraiser expanded the search parameters to achieve comparable sales. Comp 1: The most recent sale- located in an area with more nearby manufactured housing, which is less desirable. Property backs up to a public school, which does not appear to be a significant factor at this time. Property is subdividable into two lots similar to the subject. Mortgage to put new septic system/city water/manufactured home/s on site, according to the agent. Comp 2: Recent sale with similar surrounding stick built residential housing. Subdividable lot that needed clearing. ***See Comments***

Condition of Appraisal Comments
Property appraised as if vacant. Assumption is made connection to public water/sewer can be achieved without excessive developmental costs. The valuation is based on the market data available to the appraiser at the time. ***See Additional Comments***

Extra Comments
ADDITIONAL COMMENTS
NEIGHBORHOOD
The more valuable residential properties in the area are generally located on the canals/bayous/bay- these property types are in limited supply. Distances to employment centers, restaurants, schools, shopping, transportation outlets is adequate and convenient.

MARKET CONDITIONS:
Values for residential lots appear to be somewhat stable after modest increases last year, according to CPAR MLS data- an oversupply now appears to becoming a more in balance supply. Conventional financing is available from a number of sources. The sales ratio for these property types appears to be primarily between 80-95%. For residential housing in this market area values had been increasing and sales price ranges have been widening. There has been an acceleration of the influx of buyers in the past two plus years. Speculation has returned to this market area as contractors/developers/investors seek profits. The peak selling season in the area is typically from early spring to early fall. ***Speculation activity and sales price ranges have widened even more as the influx of buyers has increased- it has not been unusual for residential properties to have bidding wars/multiple offers and sale above asking prices- although the trend appears to be slowing somewhat possibly due to inflation and rising interest rates. ***

SITE
There appears to have been a home on site that was most likely demolished at some point(due likely to Hurricane Michael Oct '18). Concrete slab/driveway on site contribute no significant value.

COMMENTS ON MARKET DATA
Comp 3: Location close to Callaway Bayou, which is desirable- lot subdividable-purchased by a manufactured home company. Fence on site appears to contribute no significant value. The adjusted sales price range of the comparables is not unusual for these property types in this market area at this time. The gross and net adjustment % is not unusual for these property types in this market area at this time.

*The appraiser analyzed other potential comparable sales in the subject's market area and other market areas-- including a sale in the subject immediate area on nearby 137 Anita Drive. Property offered a 9450 +/- sf Lot- 70 +/- ft of road frontage- not subdividable- does not appear to have been offered on the open market- sold on 06/07/2023@ $37,000.

EXPOSURE TIME: The estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal is 5-55 days. The opinion is based primarily on information gathered through verification of comparable sales.

COMMENTS AND CONDITIONS OF APPRAISAL
The reported analyses, opinions and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Ethics and Standards of Professional Practice of the Appraisal Institute. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives. As of the date of this report, the appraiser has completed the continuing education program for Practicing Affiliates of the Appraisal Institute.

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.Appraiser Independence:

No employee, director, officer, or agent of the Seller, or any other third party acting as joint venture partner, independent contractor, appraisal company, appraisal management company, or partner on behalf of the Seller has influenced or attempted to influence the development, reporting, result, or review of this assignment through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery or in any other manner. I represent and warrant that, as of the date of this Report, I have had no contact with anyone that would in any way be construed as a violation of the Appraiser Independence Requirements; the only individuals with whom I have had any contact regarding my preparation of this Report have been limited to representatives of LRES Corporation and the designated individual required for entry into the subject property for purposes of inspection. No agent or representative of lender/client whose name appears on the first page of this Report has contacted me directly and I am obligated to and would report any such unauthorized contact, whether in person, by phone, or electronically, to LRES Corporation immediately.

The intended use of the appraisal is to develop the as is market value, which is a Mortgagee's tool for determining the list price of a PFS property.

Market Conditions Addendum to the Appraisal Report

File No. 2023055

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 5808 Lois Street City Panama City State FL Zip Code 32404-6428

Borrower USDA/RD and PennyMac

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.).

Seller concessions are not unusual, however, not prevalent.

Are foreclosure sales (REO sales) a factor in the market? [ ] Yes [X] No If yes, explain (including the trends in listings and sales of foreclosed properties).

Foreclosure/short sale activity is not a significant factor in this market area at this time. Foreclosure/short sales in past year: 1 of 62 total sales; contingent/pendings: 0 of 14; active listings: 0 of 48.

Cite data sources for above information. CPAR MLS.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

The appraiser expanded the search parameters to create a reasonable sample. The market conditions addendum requires the appraiser to analyze sales and listings that compete with the subject property. The neighborhood section on page 1 requires the appraiser to analyze the market on a broader scale. Consequently, the neighborhood section may not completely coincide with the market conditions addendum.

This appraisal report is subject to the scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

4. The appraiser has noted in this appraisal report any adverse conditions (such as the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent deficiencies or adverse conditions of the property (such as, but not limited to, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the subject property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

9. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale of the subject property.

10. I have knowledge and experience in appraising this type of property in this market area.

11. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

12. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

13. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

14. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

15. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

16. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

17. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event.

18. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

19. I identified the client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

20. I am aware that any disclosure or distribution of this appraisal report by me or the client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

21. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

File No.2023055

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
