PRODUCT DISCLAIMER:

This valuation is not an appraisal. Though market value is a component of this valuation, the information and value conclusion within was not from a person licensed or certified under applicable law to perform appraisals unless otherwise noted within the report.

SCOPE OF WORK:

The preparer must, at a minimum: (1) perform a visual inspection of the subject property as notated on page 1 of this evaluation, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this report.

DEFINITION OF MARKET VALUE:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale; the buyer and seller each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. (As defined by Title XI, 12 CFR part 34 Subpart C)
