Form 1004UAD - "TOTAL" appraisal software by a la mode, inc. - 1-800-ALAMODE

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

HURRICANE HELENE: Subject's area was severely affected by Hurricane Helene. However, subject house/property not directly affected by Hurricane Helene. It is too soon (no market data) to indicate if there has been any effect on current market values.

MARKET DATA: Per CMLS, SFR (non-manufactured) market changes for all of BUNCOMBE county for prior 12 months compared to same time period year prior: Total Sales down 8% to 2,674; Median sale price up 6% to $530,000; Avg sale price up 12% to $698,000; Avg DOM up 21% to 47; P/L down 1% to 98%. Current active & pending listings @ 1,002 – 4.5 month inventory based on sales prior 12 months.

COMMENTS ON SUBJECT, COMPS, & ADJUSTMENTS:

SUBJECT: Subject is a 1,998 sf 1.1-story contemporary style house located on a 0.92 acre lot in the Fairview area of southeastern Buncombe County. Subject's Total Heated Living Area/GLA of 1,998 sf is all above-grade. Subject's 681 sf of finished/heated area is not included as total finished heated living area as it is access via non-finished heated living area (unfinished basement area). The house was built in 1987. It has had some updates over the years and in average overall condition (UAD C4). It was built/updated with average overall quality of materials (UAD Q4).

ADJUSTMENTS: All adjustments made/not made are based on market data analysis in subject's market area and value range. Derived via combination of Paired Sales Analysis, Simple Linear Regression, Grouped Data Analysis, and Sensitivity Analysis.

COMPS DATE OF SALE: Due to low overall sales in subject's immediate area, search for comps had to expand over 90 and 180 days. However, comp 1 sold within prior 90 days from effective date. No time adjustment made for comp 1 due to recent date of sale. Comps 2, 3 & 4 are given positive time adjustments of 5% per year (made from contract dates) to reflect latest market data (increasing values).

COMPS' LOCATIONS: Due to low overall MLS sales in subject's immediate area and subject's characteristics, the search for comps had to expand over 1 mile. This is typical in subject's market area. However, subject and comps all located in similar overall NHs in similar overall market areas of southeastern Buncombe County. No specific market reaction for being located on either side of major roadways nor for zip code differentials.

SITE SIZE: No site size adjustments made for similar overall site sizes (within 0.20 acre). Adjustments of $15,000 per acre are made to reflect typical market reaction for "surplus" site size.

VIEWS: Subject has wooded residential with winter mountain views. In regards to market reaction, comps all have similar overall views.

DESIGN (STYLE): In regards to market reaction, subject and comps all have similar overall designs (styles).

QUALITY OF CONSTRUCTION: Subject and comps all deemed to have similar average overall interior and exterior quality of construction (UAD Q4).

AGE/CONDITION: Age/condition adjustments made based on overall observed, reported, assumed effective age. No actual age adjustments made.

Subject, comps 2 & 4 all deemed to be in similar average overall condition (UAD C4). Comps 1 & 3 both deemed superior overall (Good/UAD C3). Adjustments of 5% are made to reflect typical market reaction.

ABOVE-GRADE ROOM COUNT: Above-grade room count adjustments are made based on bathroom counts. Amount of adjustments based on what is typical market reaction in subject's market area relative to subject and comps value range. No specific market reaction for bedroom counts. Adjustments of $10,000 per full bathroom are made.

ABOVE-GRADE GLA: Above-grade GLA adjustments are based on what is typical market reaction in subject's market area relative to subject and comps value range.

BASEMENT: Basement adjustments are based on what is typical market reaction in subject's market area relative to subject and comps value range.

Subject's 681 sf of finished/heated area is not included as total finished heated living area as it is access via non-finished heated living area (unfinished basement area). Subject's 681 sf has a bonus room and a full bathroom. The area, including full bathroom, are accounted for and adjusted accordingly at the Basement & Finished line. Subject's full bathroom not accounted for at Rooms Below Grade line due to not being included in total finished heated living area due to access via non-finished heated living area.

BASEMENT ROOMS: Treated same as above-grade rooms.

HEATING/COOLING, GARAGE, PORCH/DECK/PATIO, FP, & AMENITIES: All adjustments made/not made based on what is typical market reaction in subject's market area relative to subject and comps value range.

COMP PARAMETERS: The appraiser comparable search parameters are all town homes within 3 miles from subject with total heated living area from 1,300 sf to 3,500 sf, built before 2020, and sold/listed from $400,000 to $700,000

(price range determined after opinion of value to provide more accurate comp and listing results). Not all results are truly comparables. Results on top of page 2 of URAR are not intended to be misleading.

SOME ADJUSTMENTS OUTSIDE FNMA RECOMMENDED GUIDELINES: Comp 2's single-line, net, and gross due to GLA.

PHOTOS: Due to the substantial damage caused by Hurricane Helene and the ongoing repairs of roads, bridges, power lines, and tree removal, many roads are still closed and "local only traffic" & "essential only" signs are prevalent. No new original comp photos taken. CMLS photos used for comps.

OPINION OF VALUE: Most weight given to comps 1 & 4 due to most similar overall with subject's characteristics given consideration in determination of opinion of value.

Current opinion of value ($535,000) is slightly higher than contract price of $530,000. Subject appears to be selling slightly below current market values.

**** Although the subject's value is lower than the predominant value (taken for latest market data), this does not indicate that it is an under-improvement. Rather, subject is in a broader market area having a wide range of values.

Reasonable Exposure Time: 0-4 months. Exposure time is deemed to expire as of the effective date the appraisal - it examines the time frame leading up to the date of valuation, linking the value estimate to how long the property would have required exposure in order to sell at the estimated market value.

A reasonable exposure time for the subject property developed independently from the stated marketing time is: 0-4 months.

Marketing Time: USPAP's Advisory Opinion 7 Marketing Time Opinions defines marketing time as: "An opinion of the amount of time it might take to sell a real or personal property interest at the concluded market value level during the period immediately after the effective date of an appraisal." (USPAP AO7). Subject's estimated Marketing Time is 0-4 months based on subject's characteristics and current market conditions.

NEIGHBORHOOD AND MARKET AREA: Per ncarea.com, "A neighborhood is an area of complementary land uses. The term neighborhood suggests a variety or balance of complementary land uses." & " The market area is the area in which properties effectively compete with the subject property in the minds of purchasers. A market area is defined by the type of property, the type of transaction (rental or sale), the geographic area in which competition exists, and the homogeneity of properties within its boundaries." The terms Neighborhood and Market Area are used interchangeably in this report.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered “new” if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner’s site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:
3.2 indicates three full baths and two half baths.

for purchase assignments, this client requires that the Original List Price for each Comparable Sale be disclosed in the report. Verify that this is included in the Sales Comparison grid or in the Addendum comments.
13.Provide comment that no personal property was included in the final opinion of value.
14.Seller name noted on purchase agreement(The Karen S Pettit Trust) does not match with the Owner of public record name noted in the report(KAREN S PETTIT REV TRUST), please verify."

In Response: (1) I added 2 active listings (as "comps" 5 & 6). All adjustments made/not made for active listings are consistent with those made/not made for sold comps. I replaced location map to include active listings. I added CMLS photos for active listings;

(2) Dimensions (182' x 147' x 212' x 174') are consistent with Property Map which is included in report. Per Tax Card (included in report) site size is 0.92 acre which does equal to site Area (40075 sf);

(3) As stated in Comments Addendum, "PHOTOS: Due to the substantial damage caused by Hurricane Helene and the ongoing repairs of roads, bridges, power lines, and tree removal, many roads are still closed and "local only traffic" & "essential only" signs are prevalent. No new original comp photos taken. CMLS photos used for comps."

To elaborate, the greater Asheville area was severely damaged from Hurricane Helene. The damage was substantial and widespread throughout the region. Even though it has been 52 days since the storm, repair work for roads, bridges, tree removal, and power lines is still ongoing. It is still being requested by local officials to avoid unnecessary travel on "back roads". CMLS photos are used for comps and listings;

(4) I did not include subject's MLS listing sheet in report. I did include Buncombe County Tax Card. I blurred out county's quality and condition rating;

(5) Propane gas is typical and does not have any effect on subjects marketability;

(6) Private road is the only common element and amenities of the Subject's PUD. No Comparable Sales are in the same PUD. Comps 1, 3 & 4 all in competing PUDs with private roads. Common Elements are similar overall between the developments;

(7) I changed borrower name to “Paul L Hoffman and Irene J Hoffman” to match contract;

Lender/Client	CitiBank, N.A.						

(8) Subject's Legal Description is from Tax Card (Included in Report) and has same Plat (0044-0173) as Public Source referenced in revision request;

(9) Number of Comparable Sales in the Subject Neighborhood is from Comp Parameters, which can be found in Comments Addendum:
COMP PARAMETERS: The appraiser comparable search parameters are all town homes within 3 miles from subject with total heated living area from 1,300 sf to 3,500 sf, built before 2020, and sold/listed from $400,000 to $700,000 (price range determined after opinion of value to provide more accurate comp and listing results). Not all results are truly comparables. Results on top of page 2 of URAR are not intended to be misleading.

Property Values are indicated as increasing based on latest Market Data, which can be found in Comments Addendum:
MARKET DATA: Per CMLS, SFR (non-manufactured) market changes for all of BUNCOMBE county for prior 12 months compared to same time period year prior: Total Sales down 8% to 2,674; Median sale price up 6% to $530,000; Avg sale price up 12% to $698,000; Avg DOM up 21% to 47; P/L down 1% to 98%. Current active & pending listings @ 1,002 – 4.5 month inventory based on sales prior 12 months;

(10) Subject - Site Area (40075 sf) is from Buncombe County Tax Card (included in report) reported site size of 0.92 acre. This differs from PUBLIC RECORDS (31363 sf) which appears to have been taken from it's MLS listing reported site size of 0.72 acre. MLS site size is a typo and not correct per Buncombe County Tax Department;

(11) Per CMLS listing, comp 1 has 1,744 sf of above-grade finished heated living area and 1,103 sf of below-grade finished heated living area for 2,847 sf of Total Finished Heated Living area. Buncombe county tax records include above and below-grade finished heated living for total reported. Small differential from county records due to county rounding exterior dimensions;

(12) I added Original List Price for sold comps and active listings to the end of Comments Addendum;

(13) No personal property was included in the final opinion of value. I added this comment to end of Comments Addendum;

(14) Seller name noted on purchase agreement (The Karen S Pettit Trust) does not match with the Owner of public record name noted in the report(KAREN S PETTIT REV TRUST) due to "The" and "REV". I am not sure why the contract name does not exactly match Buncombe County Tax Records, but they appear to be referring to same ownership.

Changes/Additions made to report on 11/26/2024 after submitting 1st revised report on 11/19/2024:

I've been asked to address the following: "Revision Request: It is noted, “due to the substantial damage caused by Hurricane Helene and the ongoing repairs of roads, bridges, power lines, and tree removal, many roads are still closed. CMLS photos used for comps.” Original photos are needed of the comparables and statement needed indicating comparables were inspected from the street. "

In Response:
I obtained the best original comp and listing photos I could on 11/26/2024.

Comps 1 & 3 both located in same gated SD. SD's gated entry photo used for comps 1 & 3. Comp 4 has "Private Drive" & "No Trespassing" signs.

I added CMLS photos for all in new last Photo Addendum labeled "COMPS' & LISTINGS' CMLS PHOTOS ADDED AS SUPPLEMENTAL TO BEST ORIGINALS".
