File No. 210571-4

Guideline, a division of Nationwide Property & Appraisal Services, LLC
Bay Equity Home Loans
770 Tamalpais Dr, Suite 207
Corte Madera, CA, 94925

File Number: 210571-4

In accordance with your request, I have appraised the real property at:

11224 Monroe Ct
Becker, MN 55308

The purpose of this appraisal is to develop an opinion of the market value of the subject property, as improved. The property rights appraised are the fee simple interest in the site and improvements.

In my opinion, the market value of the property as of January 6, 2022 is:

$315,000
Three Hundred Fifteen Thousand Dollars

The attached report contains the description, analysis and supportive data for the conclusions, final opinion of value, descriptive photographs, limiting conditions and appropriate certifications.

PUD INFORMATION

PROJECT INFORMATION FOR PUDs (if applicable)

Is the developer/builder in control of the Homeowners' Association (HOA)? ☐ Yes ☐ No Unit type(s) ☐ Detached ☐ Attached

Provide the following information for PUDs ONLY if the developer/builder is in control of the HOA and the subject property is an attached dwelling unit.

Legal name of project

Total number of phases Total number of units Total number of units sold

Total number of units rented Total number of units for sale Data source(s)

Was the project created by the conversion of an existing building(s) into a PUD? ☐ Yes ☐ No If Yes, date of conversion.

Does the project contain any multi-dwelling units? ☐ Yes ☐ No Data source(s)

Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion.

Are the common elements leased to or by the Homeowners' Association? ☐ Yes ☐ No If Yes, describe the rental terms and options.

Describe common elements and recreational facilities.

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

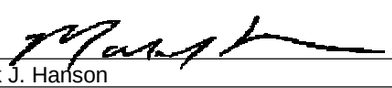

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Summary of Sales Comparison Approach

Uniform Appraisal Dataset Definitions

Condition Ratings and Definitions

C1 The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.*

**Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).*

C2 The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

**Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.*

C3 The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

**Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.*

C4 The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

**Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.*

C5 The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

**Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.*

C6 The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

**Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.*

Quality Ratings and Definitions

Q1 Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2 Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3 Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4 Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5 Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6 Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/ or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

The number of full and half baths is reported by separating the two values by a period. The full bath is represented to the left of the period. The half bath count is represented to the right of the period. Three-quarter baths are to be counted as a full bath in all cases. Quarter baths (baths that feature only toilet) are not to be included in the bathroom count.

ADDENDUM

Borrower: Cody Michael Poshek		File No.: 210571-4
Property Address: 11224 Monroe Ct		Case No.: 277-3990274
City: Becker	State: MN	Zip: 55308
Lender: Bay Equity Home Loans		

Analysis of the Sales Contract
Continued from Analysis of the Sales Contract: agreement provided by the lender. It was signed by the buyers on 12/20/2021. It was signed by the seller on 12/22/2021, which is also the final acceptance date.

Neighborhood Market Conditions
Marketing time is typically 1 to 3 months. Upper bracket priced homes and hobby farms typically exceed 6 months. 0 to 3 points typical with 3.10% to 3.25% interest rates on Conventional, FHA and VA financing. Typical home sells for approximately 100.9% of listed selling price.

Exposure time: A reasonable exposure time for the subject property, at the opinion of value indicated, is estimated to be under 90 days.

Property values are increasing in the city limits of Becker. A graph has been attached showing the median sale price of all style of single family homes, over the past five years. All homes on city water.

Median sale price is $289,900 compared to $248,500 at the end of 2020. This is a 16.6% increase.

Highest and Best Use
The subject, as improved, is a legally permissible use based on its current zoning. The lot size, physical condition and land to building ratio allow the present structure and indicate a good utilization of the improvements. The present use as a single family residence is physically possible and financially feasible. Subject property maximizes its productive use of the property.

Additional Features
Forced air furnace. Central air conditioning. Water softener. Underground sprinkler system. Uncovered deck. Chain link fence. Front covered entry. Three car attached garage. 100 Amp electrical service. Two car detached garage, 28x40 that is heated and insulated.

Condition of the Property
Continued from Condition of the Property: house. Basement finishings consist of family room, two bedrooms, bathroom, and unfinished utility room. Carpeted flooring in the family room, and bedrooms. Vinyl flooring in the bathrooms.

Comments on Sales Comparison
The subject property meets HUD's minimum property standards for existing dwellings as outlined in the HUD Handbooks 4000.1.

All utilities and appliances were turned on and in working order at time of appraisal inspection. It was noted that any appliances present are conveyed with the sale. Built in appliances are considered "Real Property" while others are considered "Personal Property". Unless noted otherwise, each item present as of the effective date was turned on and observed to be working at the time of observation. Note: These items were turned on and immediately turned off after observation. A full cycle observation is outside the scope of the assignment and the appraiser is not qualified to determine if they are mechanically sound or estimate their remaining life expectancy. Due to the nature of durable goods (appliances) there is no guarantee they will work after the observation on the effective date. The appraiser is not responsible for damages caused by defective items during, or after the observation of their operation. Note: Observation of Central Air Conditioning and Furnace/Heat is limited by exterior temperatures. Where possible, these systems were turned on and observed. Air Conditioners are not observed in operation whenever the exterior temperature has not been above 60 degrees for three or more days. Likewise, furnaces are not tested if the outside temperature is 70 degrees or greater due to potential damage.

A head and shoulders inspection of the attic was performed, and no signs of leakage were noted, and insulation appeared adequate.

I have provided four sold comparables, comps 1-4. Comps 1-3 have sold in the past three months. Comp 4 has sold in the past four months. It should be noted that the 1004MC shows adequate sales within 0-90 days for comparison. The appraiser has chosen sales from the past 12 months that were considered the most accurate for use in the Sales Comparison Approach. This approach allowed for a larger sample to analyze. I have also provided and adjusted a pending sale and active listing, comps 5 & 6. All comps used had typical financing. Seller paid contributions have been analyzed. There were found to be a necessary part of the transaction, and no dollar adjustment is warranted.

Comps range from 2.9 blocks to 1.66 miles from the subject, which is not uncommon for Becker. Comps all have similar access to Highway 10. They all share the same school system, Becker. They also share the same recreational facilities and shopping centers. The typical buyer would consider all neighborhoods as equal.

Gross living area has been adjusted at $33 per sq.ft., supported by the gla calculation chart attached. With limited recent sales, I was unable to bracket the subjects gla, but did with the pending sale and active listing. Subject is not under improved for this market. Above ground bedrooms adjusted at $5,000. Above ground full bathrooms adjusted at $5,000. No foundation size adjustment is warranted. Basement walkouts adjusted at $5,000. Basement finishing adjusted at $2,000 per room, no finished sq.ft. adjustment is made. Comps are located on similar city water and sewer sites, no adjustment warranted for the subjects surplus land. Comps are constructed with similar quality materials. Comp 4 adjusted under Quality on the grid, for the solid surface kitchen counter top upgrade. No actual age adjustment is warranted. Garage stalls adjusted at $10,000. With limited recent sales, I was unable to provided a sale with the same garage stall count. This is not a over improvement, just limited sales. Comp 6 exceeds the 10% line for garage stalls and 15% net line adjustment, but is best available.

Time adjustments for the increasing market conditions were analyzed, but not warranted, as all sales are recent.

The comparables provided are the best available sales. A weighted conclusion has been utilized in my opinion of market value, with more weight shifted to comps 1-3, all of which are most recent, in the past two months. Remaining weight then

Borrower: Cody Michael Poshek		File No.: 210571-4
Property Address: 11224 Monroe Ct		Case No.: 277-3990274
City: Becker	State: MN	Zip: 55308
Lender: Bay Equity Home Loans		

shifted to comp 4, which is located in the subjects development. A chart has been attached showing the weighted process.

The predominant value as stated on page 1 of the URAR is 290K. The subject is of the higher valued homes and there appears to be marketability for properties such as the subject. The subject does not appear to be over improved for the area.

Final Reconciliation
The intended user of this appraisal report is the Lender/Client, FHA and their successors and assigns. The purpose of this appraisal is for underwriting a FHA insured home loan. The intended use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated scope of work, purpose of the appraisal, reporting requirements of this appraisal report form, and definition of market value. No additional intended users are identified by the appraiser.

Cost and income approach were not developed. Only the site value was developed in the cost approach section.

The cost approach is typically utilized when improvements are new construction. Because the subject property is existing construction it is not felt this method would be applicable as the depreciation methods and cost service guides used to complete are not as reliable of an indicator of value as the sales comparison approach.

The income approach is typically utilized when sufficient investor owned properties exist with the subject's immediate area or neighborhood and when investors regularly acquire such properties that are equally desirable to the subject for the express purpose of the income they provide. While rentals may exist in any area, their presence alone is not be considered as proof of a viable rental or investor marketplace. As such, in areas dominated by "owner occupied" units, such as the case with the subject if the income approach is not considered applicable.

All appraisals that are submitted electronically on behalf of Hanson Appraisals Services contain electronic signatures.

Prior Services - I have performed no services, as and appraiser, or in any other capacity, regarding the property that is the subject of this report, within the three year period immediately preceding acceptance of this assignment.

The subject is an existing property and may have been appraised by other appraisers in the past. The comparable sales used in this report may have been described slightly differently from appraiser to appraiser in terms of Quality and Condition and other elements. I have physically measured the subject property and have reported the GLA and calculations accordingly (see sketch). I have reported my data sources for the comparable and subject data. I have no knowledge of any other appraisers body of work nor am I privy to any peer and model adjustments and cannot speak to any differences from the Fannie Mae/Freddie CU Score systems Warning(s)" regarding the GLA measurements, quality ratings, condition ratings or any other information versus this report.

This appraiser also cannot speak to the comparable sales data in terms of quality and condition rating, design style interpretation, or adjustments expressed by peers or a statistical model due to the subjective nature and calculation method variations of these categories within the comparable grid and overall analysis. A comprehensive analysis was performed when
determining the GLA adjustment as well as the reconciled value, both of which can be found in the addendum. This appraiser deems the comparable data as well as the adjustments made are the most appropriate for this individual assignment.

The appraiser is not a home inspector, and this appraisal report is not a home inspection; the appraiser only performed a visual observation of accessible areas and the appraisal report cannot be relied upon to disclose conditions and/or defects in the property.

**Note regarding appraisal process: The appraisal inspection was completed with the observance of Trainee, Tyler Jon Hanson - MN License # 40710745. Tyler observed during the site inspection and description, building inspection and description.

Conditions of Appraisal
This report was prepared in accordance with the requirements of the Appraisal Report option of USPAP.

The appraisal complies with the USPAP and Title XI of the FIRREA of 1989, as amended, 12 U.S.C. 3331 et seq., and any implementing regulations.

As the date of this report, I have completed the continuing education requirements of the AI, ASA & NAIFA.

Additional Comments
01/11/2022

An inspection of the crawl space under the foyer was performed, and photo was included. Crawl area is typical and has adequate clearance and space. I am unable to check the full basement box, and crawl space box on page 1. Subject has a full basement, with a small crawl area under the foyer. UAD won't allows both boxes to be checked for FHA.

Signature date has been updated.

HANSON APPRAISAL SERVICES, INC.

277-3990274

Market Conditions Addendum to the Appraisal Report

File No. 210571-4

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 11224 Monroe Ct City Becker State MN Zip Code 55308

Borrower Cody Michael Poshek

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Median Sale Price as % of List Price	102.58%	103.62%	101.14%	☐ Increasing	☒ Stable	☐ Declining
Seller-(developer, builder, etc.)paid financial assistance prevalent? ☒ Yes ☐ No				☐ Declining	☒ Stable	☐ Increasing

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.).

The use of seller concessions over the past 12 months is not uncommon in this market. For the conventional loan, 0 to 3% are not uncommon for seller paid contributions. FHA loans can see seller contributions up to 6%. These concessions are typical used for the buyers closings costs and some prepaids.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

There have been some foreclosures in this market. They have resulted in driving the average sale price lower. As the inventory of foreclosures declined, the market has moved back to a stable environment, with values now back to increasing in the overall trend on page 1.

Cite data sources for above information. St. Paul Area Association of Realtors

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

There has been limited comparables available to effectively analyze the subjects sub market conditions. As a result, I have market all boxes above as stable. I have referred to the overall Market Conditions noted on page 1 of the appraisal. A minimum of 30 sales are needed to effectively analyze the subjects sub market conditions.

The statistics reflect bi-level and four level split entry homes in Becker, built 1990 to 2015. Homes with gla from 800 to 1,275 sq.ft. All homes on city water. Homes with garage stalls from 2 to 6 stalls.

CONDO / CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project , complete the following: **Project Name:**

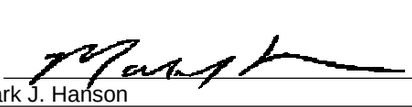

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)				☐ Increasing	☐ Stable	☐ Declining
Absorption Rate (Total Sales/Months)				☐ Increasing	☐ Stable	☐ Declining
Total # of Active Comparable Listings				☐ Declining	☐ Stable	☐ Increasing
Months of Unit Supply (Total Listings/Ab. Rate)				☐ Declining	☐ Stable	☐ Increasing

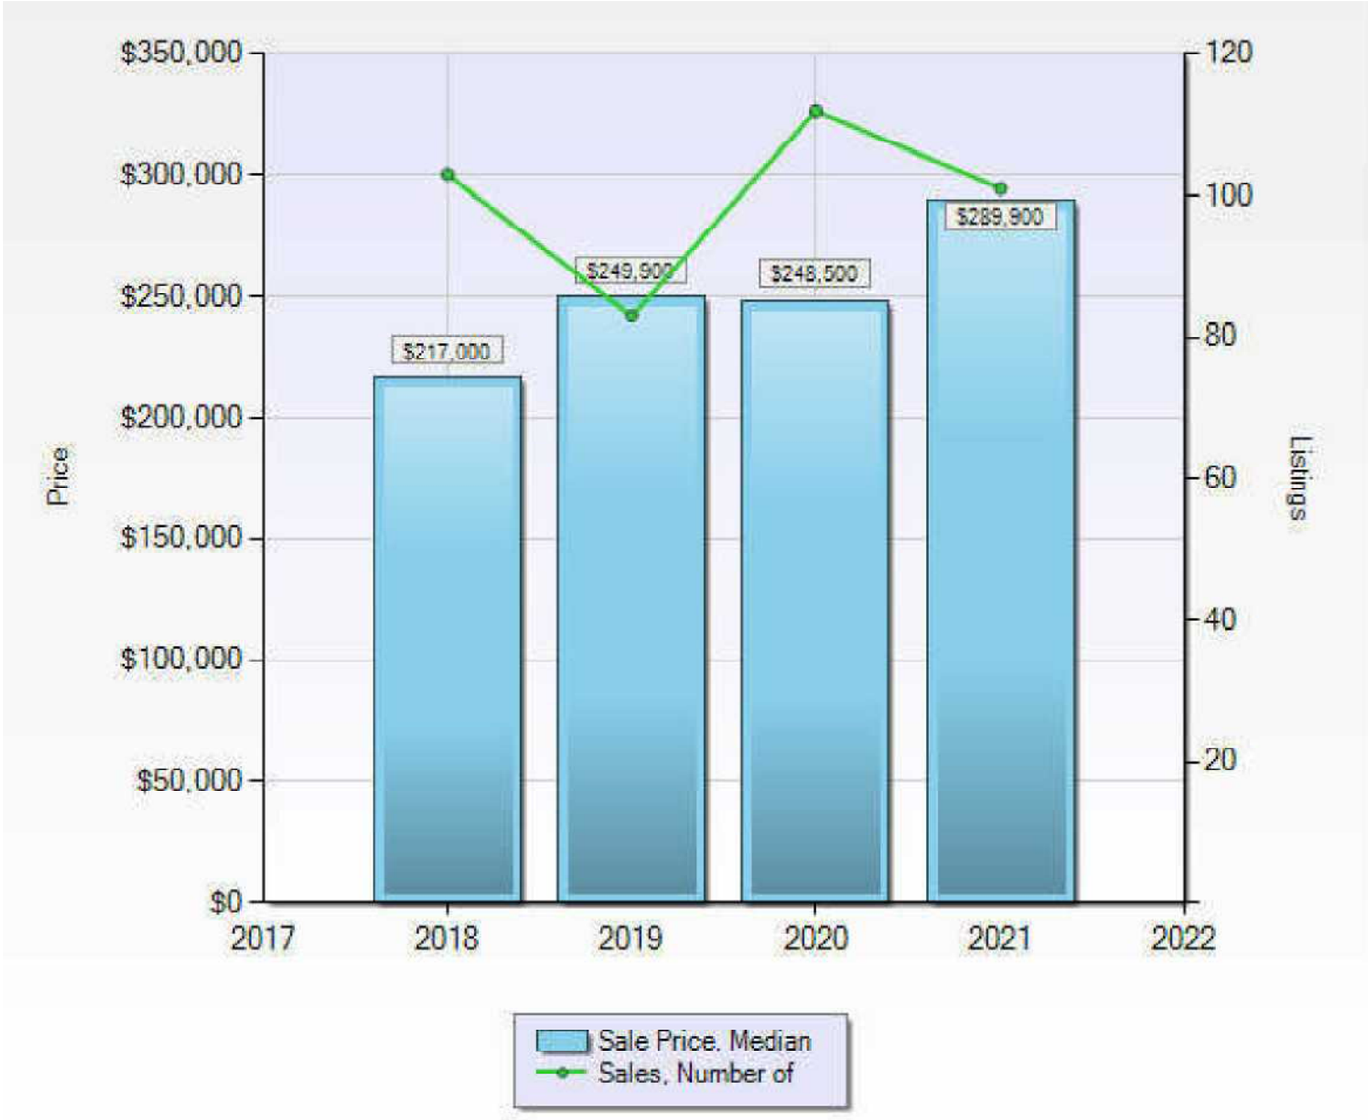

Are foreclosure sales (REO sales) a factor in the project? ☐ Yes ☐ No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

N/A

Summarize the above trends and address the impact on the subject unit and project. N/A
