Manufactured Home Appraisal Report

This report form is designed to report an appraisal of a one-unit manufactured home; including a manufactured home in a planned unit development (PUD). A Manufactured home located in either a condominium or cooperative project requires the appraiser to inspect the project and complete the project information section of the Individual Condominium Unit Appraisal Report or the Individual Cooperative Interest Appraisal Report and attach it as an addendum to this report.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I also developed the cost approach to value as support for the sales comparison approach. I have adequate comparable market and cost data to develop reliable sales comparison and cost approaches for this appraisal assignment. I further certify that I considered the income approach to value but did not develop it, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Neighborhood Description
A reasonable exposure time for the subject property at the opinion of value indicated is estimated to be the same as the marketing time reported in the neighborhood section on page one of this report. County Road A, a local traffic artery, is within 1/2 mile and offers access to shopping, schools, employment centers and freeways. The stated vacant land use has no adverse effect on marketability The opinion of value falls below the predominate market value however the subject is not considered a under improvement.

Market Conditions
MLS statistics indicate that sellers are receiving 96-100+% of listing prices with a average marketing time of 72 days. Financing at the present time is readily available from a variety of sources which benefits both potential buyers and sellers. CMA data shows a insufient number of sales in Belgium therefore sale from a 5 mile radius in Ozaukee County were utilized for the market sale trend assuming that they would be similar. There were 86 sales from 2023-2024 with a average sale price of $409,000 and 115 sales from 2022-2023 with a average sale price of $343,000 indicating a 16% annual increase. No market condition adjustments were utilized due to the insufient manufactured home sales data. the opinion of value falls below the predominate market value however it is not considered either a under or over improvement.

Highest and Best Use
The appraiser has concluded the highest and best use of the property, as improved to be its current use. This opinion is supported by the fact that the improved property is physically possible (see improvements description and pictures), is a legal use (see site section / zoning), is financially feasible (see sales comparison approach for sales of similar properties) and is considered to be the maximal productive use (improvements contribute positively to the site and it would not be feasible to change them to a more productive use without substantial capital improvement).

Prior Sales Comments
Additional Appraisers Certification: I have performed No services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the past 12 year period immediately proceeding acceptance of this assignment. Exposure Time: A reasonable exposure time for the subject property at the opinion of value indicated is estimated to be the same as the marketing time reported in the neighborhood section on page one of this report. There are no recent sales or transfers of the subject in the past 36 months. There are no recent sales or transfers of the comparables in the past 12 months.

Comments on Sales Comparison
The subjects GLA was developed from the appraisers measurements of the subject at the time of the appraisal and was not obtained from any other source. Adjustments used are based on market reaction. DOM are typical for the area. No personal property was given contributory value in this report. No GLA adjustments are made for variances of 100 SF or less due to a typical buyer would not discern the difference.

The subject property is located in a neighborhood with a very limited number of sales that could be used for comparison. In order to locate sales of properties with similar amenities as the subject, an exhaustive search was conducted of the market which included Ozaukee County. The comparable sales presented within this report are considered the best available to this appraiser at this time for comparison to the subject.

CMA data shows 1 manufactured home in Ozaukee County in the past 12 months. Please comparable #3. CMA data shows 7 manufactured homes in Ozaukee County as far back as the MLS listing data has records with sale with prices ranging from $65,000 - $324500.

No market condition adjustments are utilized due to the insufient sales data to utilize a reliable market condition adjustment.

The desired 8% net and 15% gross adjustments are exceeded however the subject is not considered either a under or over improvement.

A larger than desired adjusted value range was exceeded due to the limited sales similar in construction, site size, basement and out building. The subject is not typical however is not uncommon for the market.

Comparable #1 is used for its style, GLA, bed count and basement. **Not for its contributory value.** It is adjusted for a market preference between a manufactured and stick constructed home. Is adjusted for ruction due to having inferior mill work, It is adjusted for age due to being a older more lived in home. It is adjusted for condition due to having inferior updates and overall condition.
Comparable #2 is used for its style, age, condition, bed and bath count. It is adjusted for its lands contributory value. It is adjusted for a market preference between a manufactured and stick constructed home.
Comparable #3 is used for its construction due to being a manufactured home, style, view, age, bed count and outbuilding. No site adjustments was deemed necessary in this report. It is adjusted for condition although sharing a similar grade as the subject however per the MLS listing and photos is on the lower end of the condition inferior to the subject.

Comparable #5 is used for its date of sale, site size, view, style, condition, GLA, bed and bath count. It is adjusted for a market preference between a manufactured and stick constructed home.
Comparable #6 is adusted for view due to having a superior pasture and wooded view, used for its date of sale, site size, condition, bath count and GLA to show the subject is not a over improvement. No age or condition adjustments are utilized due to having extensive updates per the MLS listing and photos. It s adjusted for It is adjusted for a market preference between a manufactured and stick constructed home.
Comparable #7 was provided as a dated sale however utilized for its manufacture construction, style, age, bed and bath count. No market condition adjustment was utilized due to the insufient sales data and its lands contributory value.

The Indicated Value by Sales Comparison Approach, $316,000, is calculated using the following weights:
15.9% - 107 N Lar Ann St; Sale Price $281,000; Adjusted Value $285,028; Gross Adj: 26.3%
18.5% - 3925 County Road KK; Sale Price $295,900; Adjusted Value $314,907; Gross Adj: 9.8%
16.2% - 307 S Heritage St; Sale Price $315,000; Adjusted Value $321,583; Gross Adj: 24.3%
16.5% - 1874 Old Spring Rd; Sale Price $365,000; Adjusted Value $316,831; Gross Adj: 22.5%
16.1% - W3465 Jay Rd; Sale Price $426,500; Adjusted Value $324,197; Gross Adj: 24.9%
17.0% - 639 N Wisconsin St; Sale Price $305,000; Adjusted Value $329,507; Gross Adj: 19.2%

Comparable #1 was not utilized for its contributory value and therefore was not utilized in the weighting value method in this report.

While the available sales are not ideal, the data set represents the best available information and is considered adequate to produce a reliable value opinion.

No personal property was given contributory value in this report.

A file photo was utilized in the report.

Conditions of Appraisal
Conditions of Appraisal
The appraiser has concluded the highest and best use of the property, as improved to be its current use. This opinion is supported by the fact that the improved property is physically possible (see improvements description and pictures), is a legal use (see site section / zoning), is financially feasible (see sales comparison approach for sales of similar properties) and is considered to be the maximal productive use (improvements contribute positively to the site and it would not be

feasible to change them to a more productive use without substantial capital improvement).

Additional Comments
ANSI - The appraiser has measured the property to ANSI Z765-2021 standards. No exceptions were made.

Clarification of Intended Use and Intended User:

The Intended User of this appraisal report is the Lender/Client. The Intended Use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Users are identified by the appraiser.

Depending upon the most reliable data, adjustments used are either paired sales or a grouped sales comparison based on evidence and indications in the marketplace.

Discussion of exceptions to common industry guidelines: It was necessary to exceed the desired 1 mile distance due to the lower population density and vacant land. It was necessary to exceed the desired 6 month sale date due to limited sales similar in construction, basement and site size. The subject is not considered either a under or over improvement.

No employee, director, officer or agent of the lender, or any other third party acting as a joint venture partner, independent contractor, appraisal management company, or partner in behalf of the lender has influenced or attempted to influence the development, reporting, result or review of this assignment through coercion extortion, collusion, compensation, instruction, inducement, intimidation, bribery or in any other matter.

The appraiser adhered to the State Licensing Requirements, as it relates to this specific assignment.

This assignment requires geographic competency as part of the scope of work. I have spent sufficient time in the subjects market and understand the nuances of the local market and the supply and demand factors relating to the specific property type and the location involved. Such understanding will not be imparted soley from a consideration of specific data such as demographics, costs, sales and rentals. The necessary understanding of local marketing conditions provides the bridge between a sale and a comparable sale or a rental and a comparable rental.

“This report is considered to be an Appraisal Report as defined by Standards Rule 2-2 of the USPAP.”

SUBJECT GROSS LIVING AREA (AREA) AND ANSI

ANSI Compliance
I have measured the subject property in compliance with "SQUARE FOOTAGE-METHOD FOR CALCULATING: ANSI Z765-2021

The method for calculating the square footage of the subject has a variety of requirements and nuances that county assessors, realtors, etc. may not abide by. As such, the gross living area (GLA), measurements, calculations, and reported areas in this appraisal report may markedly differ from other sources.

Statement of Finished Square Footage

1. The finished above - grade footage for the subject property can be found in the improvements Section and on the sketch or within sketch calculations.
2. Unfinished above - grade footage can be found on the sketch or within sketch calculations.
3. Finished below - grade square footage can be found in the Improvement Section and on the sketch or within sketch calculations.
4. Unfinished below - grade square footage can be found on the sketch or within sketch calculations.

Bracketing home size under ANSI

With the new ANSI reporting requirement and calculation method for the subject GLA and the date sources available for the comparable sales/listings, the subject GLA may appear un-bracketed in the Sales Comparison Analysis. This is a result of comparable sales/listings market data (assessors, MLS, etc.) being misaligned with the new ANSI GLA requirements from Fannie Mae. To better illustrate the compatibility of the comparables with the subject and documented assessors/MLS data on the subject and comparable sales/listings.

Note to reader regarding the size of the subject property

This appraisal report complies with recent imposed Fannie Mae reporting requirements. The total above grade living area of the subject property may be reported differently on local assessors' records, MLS, prior appraisal reports, etc. The difference is most likely attributed to differences between the way appraisers are now required to report GLA under Fannie Mae reporting requirements and the way alternative data sources report living area or finished square footage. When applied correctly, the new methodology appraisers must use does not "devalue" the subject or diminish its overall size.

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.
